Telephoto Lens Photography:

Macro Vs Telephoto Photography: Which Lens Produces Better Images C. Mahoney, 2019-08-30 In this book I compare the Canon EFS 18 135mm f 3.5 5.6 IS USM to the Canon EF 100mm f 2.8L IS USM Macro Lens Why am I comparing these two lenses Because I own both and wanted to see which lens produced the better results Sure I could say that the more expensive lens produces the best results but is that accurate Does that opinion match the data in a side by side comparison Since my telephoto lens also takes photos at 100mm which is the better choice if you have to choose between one or the other When out photographing insects at a local botanical garden or on trails I like to use my macro lens It is awesome for close up photography and showing details However I can't take any wide angle shots of outdoor scenery or zoom on deer that happen to appear nearby or birds that land on a branch or a raccoon that wanders toward the creek And it has an incredible motor inside that makes noise Yep it never shuts up So get used to the noise if you buy this lens I like my telephoto lens because it can be used in a variety of scenes not just searching for bugs and I don't have to get so close to insects to get their photo I can take a photo of an ant on a leaf and turn around and take a photo of a deer that just walked into a clearing It's cheaper and quite versatile But can its images of spiders or dragonflies match those of the macro lens Well look on the cover Can you tell which one was taken by the macro lens more expensive and which was taken by the telephoto cheaper lens I doubt it For most images I don't think that you'll find much of a difference but don't take my word for it Look through this book and decide for yourself Here are a few of my wildlife photography books Finding Insects and Spiders on Leaves How to Take Photos in the Summer Discovering Insects and Spiders on Flowers How to Take Photos in the Summer Capturing the Color and Texture of Leaves How to Take Photos Like a Pro Capturing the Color and Texture of Flowers How to Take Photos Like a Pro Tree Stumps and Rotting Wood in the Forest How to Take Photographs in the Winter Macro vs Telephoto Photography Which Lens Produces Better Images Wildlife Photos Macro Lens vs Telephoto Lens Aperture Size and Shutter Speed Using Aperture Priority with a Digital Camera A Day at the Norfolk Botanical Garden How to Take Photos Like a Pro Having Fun With My Camera Great Dismal Swamp State Park Having Fun With My Camera Merchants Millpond State Park Having Fun With My Camera Oak Grove Lake Park Williamsburg Botanical Garden How to Take Photographs in the Fall
