Preaching to a TV Generation Michael Rogness, 1994 Michael Rogness has put his finger on a serious homiletical problem people accustomed to being fed a video diet are having difficulty digesting the verbal food we preachers set before them each week Readers will be relieved that Professor Rogness not only identifies problems but offers some tantalizing recipes to help us in our task William R White Author of *Stories For Telling* Madison Wisconsin The crisis of preaching is that we face an audience accustomed to new forms of communication The way people listen is shaped mostly by today's most dominant medium television And yet we preach about the same as preachers did before the arrival of television It isn't working very well from the foreword The gospel has always been conveyed primarily by speaking it to people The problem is that in today's world of television people listen and hear differently than they listened and heard in the past When preachers understand the dynamics of this new world then the gospel can ring with new vigor and life in our preaching writes the author *Preaching To A TV Generation* explores the changes brought to our society by television It suggests what preachers can do in the face of these changes in terms of language structure creativity and delivery Michael Rogness St Paul Minnesota is a professor at Luther Northwestern Theological Seminary He is a former Fulbright Scholar and

holds a doctorate in theology from Erlangen Nurnberg University Germany For 15 years he was senior pastor of First Lutheran Church Duluth Minnesota He is the author of many books and articles His sermons have appeared in a number of Augsburg Sermons Series *Broadcasting the Faith* Michael E. Pohlman,2021-02-02 Broadcasting the Faith tells the riveting story of the American church's embrace of radio in the early decades of the twentieth century By investigating major radio personalities like Walter Maier Aimee Semple McPherson Harry Emerson Fosdick and Charles Fuller this study considers the implications for theology in America when Christianity moved to the airwaves In the heyday of radio religious radio preachers sought to use their programs to counter the secularization of American culture Ultimately however their programs contributed to secularization by accelerating changes already evident in both the conservative and liberal streams of American Christianity To reach a vast American audience radio preachers transformed their sectarian messages into a religion more suitable to the masses thereby altering the very religion it aimed to preserve To make religion accessible to large and diverse audiences radio preachers accommodated their messages in ways suited to the medium of radio Although religious radio preachers set forth to advance the influence of religion in American society their choice to limit theological substance ironically promoted the secularization of the American church **The Unnecessary Pastor** Marva Dawn,Eugene Peterson,1999-11-17 Best selling authors Marva Dawn and Eugene Peterson offer encouragement to pastors Pastors are strategically placed to counter the culture No other profession looks so inoffensive but is in fact so dangerous to the status quo Their weapon A gospel that is profoundly countercultural But standing firm in today's world isn't easy Powerful forces both subtle and obvious attempt to domesticate pastors to make them in a word unnecessary In this book two of today's most respected authors help pastors recover their gospel identity and maintain a pure vision of Christian leadership Marva Dawn and Eugene Peterson reconnect pastors with the biblical texts that will train them as countercultural servants of the gospel Marva Dawn looks to Paul's letter to the Ephesians for instruction for churches seeking to live faithfully in today's world In turn Eugene Peterson explores Romans 1 and 2 Timothy and Titus drawing from them the correct view of pastoral identity

The Commercial Church Mary Hinton,2011-05-19 In this new book on the rise of commercial black mega churches Mary Hinton examines the rich legacy of the historic black church from the dual perspectives of theology and religious education She explores the new religious models emerging from the tradition of the historic black church and questions whether they are continuing to operate and practice according to the wisdom of this unique form of American religion Two mega church ministries those of T D Jakes and Creflo Dollar are examined in detail with regards to how they align with black church religious history Hinton concludes by proposing that the fastest growing religious phenomenon within and outside of the black community in the United States the mega church should no longer be analyzed based on size alone Instead Hinton urges readers to consider the ecclesiastical structures of churches in making appropriate assessments in determining should and should not be classified as a commercial church **The Digital Evangelicals** Travis Warren Cooper,2022-08-02 When

it comes to evangelical Christianity the internet is both a refuge and a threat. It hosts Zoom prayer groups and pornographic videos, religious revolutions and silly cat videos. Platforms such as social media, podcasts, blogs, and digital Bibles all constitute new arenas for debate about social and religious boundaries, theological and ecclesial orthodoxy, and the internet's inherent danger and value. In *The Digital Evangelicals*, Travis Warren Cooper locates evangelicalism as a media event rather than as a coherent religious tradition by focusing on the intertwined narratives of evangelical Christianity and emerging digital culture in the United States. He focuses on two dominant media traditions: media sincerity (immediate and direct interpersonal communication) and media promiscuity (communication with the primary goal of extending the Christian community regardless of physical distance). Cooper's work is informed by ethnographic fieldwork; it traces these conflicting paradigms from the Protestant Reformation through the rise of the digital and argues that the tension is culminating in a crisis of evangelical authority. What counts as authentic interaction? Who has authority over the circulation of information? While many studies claim that technology influences religion, *The Digital Evangelicals* reveals how Protestant metaphors and discourses shaped the emergence of the internet and explores what this relationship with global new media means for evangelicalism.

The Oxford Handbook of the Bible and American Popular Culture Dan W. Clanton (Jr.), Terry R. Clark, 2020. The study of the reciprocal relationship between the Bible and popular culture has blossomed in the past few decades, and the time seems ripe for a broadly conceived work that assesses the current state of the field, offers examples of work in that field, and suggests future directions for further study. This Handbook includes a wide range of topics organized under several broad themes, including biblical characters such as Adam, Eve, David, and Jesus, and themes like Creation, Hell, and Apocalyptic in popular culture; the Bible in popular cultural genres, for example film, comics, and Jazz; and lived examples such as museums and theme parks. The Handbook concludes with a section taking stock of methodologies and the impact of the field on teaching and publishing. *The Oxford Handbook of the Bible and American Popular Culture* represents a major contribution to the field by some of its leading practitioners and will be a key resource for the future development of the study of both the Bible and its role in American popular culture.

Religion vs. Television Jay Newman, 1996-08-20. The subject of competition between religion and television has, if only indirectly, received considerable attention, particularly from religionists disturbed by the threat posed by television programming to traditional religious beliefs, values, and attitudes. This detailed study considers the competing cultural forces of television and religion from a wider and more theoretical perspective. Newman examines the major forms of competition and the various motives and strategies of the people and groups involved. His philosophical approach allows us to see that the most important aspect of competition between television and religion is their rivalry as cultural forces. In this rivalry, religion continues to have a profound influence on the shaping of television, just as it has always had on all newly developing forms of culture.
