Television The Business Behind The Box Harvest:

Television Les Brown, 1971 *Tracing the Semiotic Boundaries of Politics* Pertti Ahonen, 2013-07-31 No detailed description available for *Tracing the Semiotic Boundaries of Politics* **Estimating Equilibrium Exchange Rates** John Williamson, 1994 The problems of exchange rate misalignments and the resulting payments imbalances have plagued the world economy for decades At the Louvre Accord of 1987 the Group of Five industrial countries adopted a system of reference ranges for exchange rate management influenced by proposals of C Fred Bergstan and John Williamson for a target zone system The reference range approach has however been operated only intermittently and half heartedly and questions continue to be raised in policy and scholarly circles about the design and operation of a full fledged target zone regime This volume with chapters by leading international economists explores one crucial issue in the design of a target zone system the problem of calculating Williamson's concept of the fundamental equilibrium exchange rate FEER Williamson contributes an overview of the policy and analytic issues and a second chapter on his own calculations **Mobilising the Audience** Tom O'Regan, Mark Balnaves, Jason Sternberg, 2002 The first comprehensive integration of industry and academic audience research in Australia this book introduces new directions in method and analysis It is a contemporary probe into audience making and illustrates the ways marketers producers and governments mobilise an audience Case studies of Gen X computer gaming child audiences **Honey, I'm Home!** Gerard Jones, 1993-03-15 Gerard Jones's *Honey I'm Home* has been widely acclaimed as the premier primer on America's Morality Plays the TV situation comedies that have chained us to our Barcaloungers ever since Lucy first bawled her way into our hearts Recalling the best and worst the sitcoms have had to offer Jones recreates their atmosphere and their times with wisdom and style paralleling the memory lane trip is his shrewd and provocative assessment of the sitcom's influence on modern society From *Farther Knows Best* to *Married with Children* from the empty calories of *The Brady Bunch* to the social commentary of *All in the Family* *Honey I'm Home* is a connoisseur's guide to the sitcom world where everybody knows your name and any problem can be solved in twenty two minutes plus commercials **Making Media Work** Derek Johnson, Derek Kompare, Avi Santo, 2014-08-01 The management and labor culture of the entertainment industry In popular culture management in the media industry is frequently understood as the work of network executives studio developers and market researchers the suits who oppose the more productive forces of creative talent and subject that labor to the inefficiencies and risk aversion of bureaucratic hierarchies However such portrayals belie the reality of how media management operates as a culture of shifting discourses dispositions and tactics that create meaning generate value and shape media work throughout each moment of production and consumption *Making Media Work* aims to provide a deeper and more nuanced understanding of management within the entertainment industries Drawing from work in critical sociology and cultural studies the collection theorizes management as a pervasive yet flexible set of principles drawn upon by a wide range of practitioners artists talent scouts performers directors show runners and

more in their ongoing efforts to articulate relationships and bridge potentially discordant forces within the media industries. The contributors interrogate managerial labor and identity, shine a light on how management understands its roles within cultural and creative contexts, and reconfigure the complex relationship between labor and managerial authority as productive rather than solely prohibitive. Engaging with primary evidence gathered through interviews, archives, and trade materials, the essays offer tremendous insight into how management is understood and performed within media industry contexts. The volume as a whole traces the changing roles of management both historically and in the contemporary moment within US and international contexts and across a range of media forms from film and television to video games and social media.

When MBAs Rule the Newsroom Doug Underwood, 1995. Writing with anger but with a deep affection for the trade, he examines the growing economic pressures within the industry, the roots of the managerial revolution, and the impact of marketplace journalism on the operation of the newsroom and employee morale.

Superheroes Beyond Cormac McGarry, Liam Burke, Ian Gordon, Angela Ndalians, 2024-03-11. Contributions by Mitchell Adams, Frederick Luis Aldama, Jason Bainbridge, Djoymi Baker, Liam Burke, Octavia Cade, Hernan David Espinosa, Medina Dan Golding, Ian Gordon, Sheena C Howard, Aaron Humphrey, Naja Later, Cormac McGarry, Angela Ndalians, Julian Novitz, Alexandra Ostrowski, Schilling Maria Lorena M Santos, Jack Teiwes, and Enrique Uribe. In recent years, superheroes on the page and screen have garnered increasing research and wider interest. Nonetheless, many works fall back on familiar examples before arriving at predictable conclusions. *Superheroes Beyond* moves superhero research beyond expected models. In this innovative collection, contributors unmask international crimefighters, track superheroes outside of the comic book page, and explore heroes whose secret identities are not cisgender men. *Superheroes Beyond* responds to the growing interest in understanding the unique appeal of superheroes by reveling in the diversity of this heroic type. *Superheroes Beyond* explores the complexity and cultural reach of the superhero in three sections. The first, *Beyond Men of Steel*, examines how the archetype has moved beyond simply recapitulating the man of steel figure to include broader representations of race, gender, sexuality, and ableness. The second section, *Beyond Comic Books*, discusses how the superhero has become a transmedia phenomenon moving from comic books to toys to cinema screens and beyond. The final section, *Beyond the United States*, highlights the vibrant but often overlooked history of global superhero figures. Together, the essays in this collection form important starting points for taking stock of the superhero's far-reaching appeal, contributing the critical conversations required to bring scholarship into the present moment and beyond.

The Future of Quality News Journalism Peter J. Anderson, Michael Williams, George Ogola, 2013-09-23. In the face of the continuously changing challenges of the digital age, it is difficult for quality news journalism to survive on any significant scale if a means for adequately funding it is not available. This new study, a follow-up to 2007's *The Future of Journalism in the Advanced Democracies*, includes a comparative analysis of possible alternative business models that may save the future of the quality news business across the developed, intermediate, and developing

worlds Its detailed evaluation encompasses also the different ways in which wider key issues are affecting the prospects for quality news as a core ingredient of effectively working democracies It focuses on the United States the United Kingdom South Africa India Kenya and selected parts of the Arab World providing a comprehensive cross cultural survey of different approaches to addressing these various issues To keep the study firmly rooted in the real world the contributors include distinguished practitioners as well as experienced academics **From Yahweh to Yahoo!** Doug Underwood,2010-10-01 Presenting religion as journalism s silent partner From Yahweh to Yahoo provides a fresh and surprising view of the religious impulses at work in contemporary newsrooms Focusing on how the history of religion in the United States entwines with the growth of the media Doug Underwood argues that American journalists draw from the nation s moral and religious heritage and operate in important ways as personifications of the old religious virtues Underwood traces religion s influence on mass communication from the biblical prophets to the Protestant Reformation from the muckraker and Social Gospel campaigns of the late nineteenth and early twentieth centuries to the modern age of mass media While forces have pushed journalists away from identifying themselves with religion they still approach such secular topics as science technology and psychology in reverential ways Underwood thoughtful analysis covers the press s formulaic coverage of spiritual experience its failure to cover new and non Christian religions in America and the complicity of the mainstream media in launching the religious broadcasting movement
