learners who want to know everything about the world Remaining extremely topical the chapters illuminate the powerful effects of therapeutic education including How therapeutic learning is taking shape now and in the future How therapeutic ideas from popular culture have come to govern social thought and policies How the fostering of dependence and compulsory participation in therapeutic activities that encourage the disclosing of emotions can undermine parents and teachers confidence and authority How therapeutic forms of teacher training undermine faith in the pursuit of knowledge How political initiatives in emotional literacy emotional wellbeing and positive mental health propagate a diminished view of human potential throughout the education system and the workplace The Dangerous Rise of Therapeutic Education is an eye opening read for every teacher and leader across the field of education and every parent and student who is passionate about the power of knowledge to transform people s lives It is a call for a debate about the growing impact of therapeutic education and what it means for learning now and in the future **Choosing Futures** Nicholas Fosskett,Jane

THIS BOOK AND REFLECT ON THE WHOLE PICTURE IT OFFERS OF WHAT MIGHT BE POSSIBLE FOR OUR YOUNG PEOPLE Policy makers should do the same but whether they have the will and courage to act accordingly is a matter for future debate David Middlewood The reform of the 14 19 stage of education and training in England is likely to be on the policy agenda for the next two decades but until now our understanding of 14 19 education like the stage itself has been incoherent and fragmented Lumby and Foskett provide a comprehensive authoritative and readable account of the recent history and current state of 14 19 education They challenge some of the myths and misconceptions that have grown up around it I recommend this book to all people with an interest in 14 19 education in England and in the current attempts to reform it Professor David Raffe Centre for Educational Sociology University of Edinburgh Schools and colleges are being asked to deal with fundamental changes in 14 19 education Designed to support policy makers practitioners and students of education in improving their understanding of this phase of education the authors present a discussion of the evolution of policy and practice across schools and colleges and their possible future development A range of educational institutions are discussed with specific reference to changes in government policy the curriculum support services and the advent of Learning and Skills Councils **CPD for the Career Development Professional** Siobhan Neary, Claire
