Telling The Tale:

Telling Tales David Blamires, 2009 Germany has had a profound influence on English stories for children The Brothers Grimm The Swiss Family Robinson and Johanna Spyri's Heidi quickly became classics but as David Blamires clearly articulates in this volume many other works have been fundamental in the development of English children's stories during the 19th Century and beyond *Telling Tales* is the first comprehensive study of the impact of Germany on English children's books covering the period from 1780 to the First World War Beginning with The Adventures of Baron Munchausen moving through the classics and including many other collections of fairytales and legends Musäus Wilhelm Hauff Bechstein Brentano *Telling Tales* covers a wealth of translated and adapted material in a large variety of forms and pays detailed attention to the problems of translation and adaptation of texts for children In addition *Telling Tales* considers educational works Campe and Salzmann moral and religious tales Carove Schmid and Barth historical tales adventure stories and picture books including Wilhelm Busch's Max and Moritz together with an analysis of what British children learnt through textbooks about Germany as a country and its variegated history particularly in times of war *Telling Tales* Joel T. Rosenthal, 2010-11-01 In *Telling Tales* Joel Rosenthal takes us on a journey through some familiar sources from fourteenth and fifteenth century England to show how memories and recollections can be used to build a compelling portrait of daily life in the late Middle Ages

How & why Stories Martha Hamilton, Mitch Weiss, 1999 Did you ever look carefully at a spider's web If their purpose is strictly to catch flies why do spiders weave such beautiful intricate webs Did you ever wonder what causes thunder Why is the sea salty How did tigers get their stripes In this collection of delightful tales from around the world and through the ages each story explains why an animal plant or natural object looks or acts the way it does *Telling Stories* Steven Cohan, Linda M. Shires, 2002-01-04 *Telling Stories* overturns traditional definitions of narrative by arguing that any story whether a Bette Davis film a jeans ad a Jane Austen novel or a Cathy comic must be related to larger cultural networks The authors show how meanings and subjectivity do not exist in isolation but are manufactured by the narratives our culture reads and watches every day They call for a critical practice that through the fracturing of texts can alter the grounds of knowledge and interpretation This timely study will interest critics of narrative and culture as well as students wanting to extend post Saussurean theories to popular and canonical cultures and to the dynamics of story telling itself
