Culture and Customs of Thailand Arne Kislenko,2004-05-30

Thailand is rapidly industrializing dramatically improving the living standards of its people and gradually developing a more democratic society Despite such profound changes traditional Thai culture has not only survived but has also in many respects prospered Although famous for its food and despite its increasing popularity as a tourist destination Thailand remains relatively unknown to most Westerners Culture and Customs of Thailand presents the traditional culture and customs against the backdrop of modern times Thailand has always been an important Southeast Asian country With a long reigning monarchy it is the only country in the region that has never been colonized by a Western power or suffered bloody revolutions and wars It was the first Asian country to establish diplomatic relations with the United States and has remained a constant ally Thailand has emerged as a considerable economic force as the world s largest rice and rubber producer and remains a regional political power Against this historical framework Kislenko deftly introduces the traditional and modern strands of the dominant Buddhist faith and other religions such as animism Coverage includes literature the arts architecture including the Thai Wat food and dress gender and marriage festivals and fun and social customs Kislenko also balances the portrait with discussions of threats from globalization AIDS and sex tourism the drug trade and corruption in business and government Evocative photos a country map a timeline and a chronology complete the coverage This reference is the best source for students and general readers to gain substantial sweeping insight into the Thais and their land of smiles

entitled to freedom of opinion and expression press publication access to information and all other human rights as stipulated in international covenants and conventions Due to a combination of poverty illiteracy and problems with distribution and coverage access to information is greatest in Phnom Penh and some provincial capitals and diminishes while going further into the countryside While this means that newspapers have the least coverage of all media their smaller audiences also explain their relatively greater ability to freely express themselves Most media are aligned with a political party and again most of them are aligned with the ruling Cambodian People s Party CPP including all television and almost all radio stations Due to widespread corruption political patrons often back media outlets the judiciary favours those in government often by using UNTAC Criminal Law to persecute critics of the government while upholding a culture of impunity for the rich and powerful and bribery and blackmailing are all but unheard of A general lack of professionalism in most of Khmer language media is both a cause and effect of tensions between media and politics During the 2008 election campaign the political alignment of most media resulted in widespread politically biased information being disseminated to the public mostly in favour of the ruling CPP This was obvious for television stations both those state run and those privately owned as all of them favoured the government CPP The general trend was one of lauding the government CPP for its achievements while criticizing opposition parties mostly focusing on the main opposition Sam Rainsy Party The majority of radio stations did the same though with some dissenting voices While internationally sponsored initiatives provided some more balanced coverage on state broadcasting channels their duration and coverage was relatively limited Moreover its effect is questionable amidst the prevalent pro CPP private media that were not subject to any regulations Newspapers too disseminated information favourable to their respective supported parties though their Englishlanguage versions remained largely neutral
