Asia's Reckoning Richard McGregor, 2018-12-04 A Financial Times Best Book of 2017 A shrewd and knowing book Robert D Kaplan The Wall Street Journal A compelling and impressive read The Economist Skillfully crafted and well argued Jeffrey Wasserstrom Financial Times An excellent modern history provides the context needed to make sense of the region's present and future Joyce Lau South China Morning Post A history of the combative military diplomatic and economic relations among China Japan and the United States since the 1970s and the potential crisis that awaits them Richard McGregor's *Asia's Reckoning* is a compelling account of the widening geopolitical cracks in a region that has flourished under an American security umbrella for more than half a century The toxic rivalry between China and Japan two Asian giants consumed with endless history wars and ruled by entrenched political dynasties is threatening to upend the peace underwritten by Pax Americana since World War II Combined with Donald Trump's disdain for America's old alliances and China's own regional ambitions east Asia is entering a new era of instability and conflict If the United States laid the postwar foundations for modern Asia now the anchor of the global economy *Asia's Reckoning* reveals how that structure is falling apart With unrivaled access to archives in the United States and Asia as well as to many of the major players in all three countries Richard McGregor has written a tale that blends the tectonic shifts in diplomacy with bitter domestic politics and the personalities driving them It is a story not only of an overstretched America but also of the rise and fall and rise of the great

powers of Asia The about turn of Japan from a colossus seemingly poised for world domination to a nation in inexorable decline in the space of two decades has few parallels in modern history as does the rapid rise of China a country whose military is now larger than those of Japan South Korea Taiwan and southeast Asia s combined The confrontational course on which China and Japan are set is no simple spat between neighbors the United States would be involved on the side of Japan in any military conflict between the two countries The fallout would be an economic tsunami affecting manufacturing centers trade routes and political capitals on every continent Richard McGregor s book takes us behind the headlines of his years reporting as the Financial Times s Beijing and Washington bureau chief to show how American power will stand or fall on its ability to hold its ground in Asia

major country conflict inevitable These are the basic issues addressed in this book Now China US relations are at a critical juncture The international community is watching the world s two largest economies and is quite concerned about the future of one of the world s most complicated bilateral relationships This timely publication of Professor Tao Wenzhao provides us with a realistic approach to managing this vital relationship in a candid and balanced way **Southeast Asia and the Rise of China** Ian Storey,2013-08-21 Since the early 1990s and the end of the Cold War the implications of China s rising power have come to dominate the security agenda of the Asia Pacific region This book is the first to comprehensively chart the development of Southeast Asia s relations with the People s Republic of China PRC from 1949 to 2010 detailing each of the eleven countries ties to the PRC and showing how strategic concerns associated with China s regional posture have been a significant factor in shaping their foreign and defence policies In addition to assessing bilateral ties the book also examines the institutionalization of relations between the Association of Southeast Asian Nations ASEAN and China The first part of the book covers the period 1949 2010 it examines Southeast Asian responses to the PRC in the context of the ideological and geopolitical rivalry of the Cold War Southeast Asian countries policies towards the PRC in first decade of the post Cold War era and deepening ties between the ASEAN states and the PRC in the first decade of the twenty first century Part Two analyses the evolving relationships between the countries of mainland Southeast Asia Vietnam Thailand Myanmar Laos and Cambodia and China Part Three reviews ties between the states of maritime Southeast Asia Indonesia Malaysia Singapore the Philippines Brunei and East Timor and the PRC Whilst the primary focus of the book is the security dimension of Southeast Asia China relations it also takes full account of political relations and the burgeoning economic ties between the two sides This book is a timely contribution to the literature on the fast changing geopolitics of the Asia Pacific region

China's Crisis Behavior Kai He,2016-04-07 Since the end of the Cold War China has experienced several notable interstate crises the 1999 embassy bombing incident the 2001 EP 3 mid air collision with a United States aircraft and the Diaoyu Senkaku dispute with Japan China s response to each incident however has varied considerably Drawing from a wealth of primary sources and interviews this book offers a systematic analysis of China s crisis behavior in order to identify the factors which determine when Chinese leaders decide to escalate or scale down their response to crises Inspired by prospect theory a Nobel Prize winning behavioral psychology theory Kai He proposes a political survival prospect model as a means to understand the disparities in China s behavior He argues that China s response depends on a combination of three factors that shape leaders views on the prospects for their political survival status including the severity of the crisis leaders domestic authority and international pressure Critical Decade, A: China's Foreign Policy (2008-2018) Zhiquan Zhu,2019-07-09 China emerged as a major economic diplomatic and military power during the critical decade from 2008 to 2018 As a result China s foreign policy has become more active and dynamic This book provides a unique perspective to understand Chinese foreign policy during this decade by examining continuities and changes in both internal and external

factors that have shaped China's development. The book focuses on key challenges in China's diplomacy such as US-China relations, the Korean Peninsula, Taiwan, Japan, India, Chinese investment overseas, the Belt and Road Initiative, global and regional cooperation, soft power, etc. It also includes an extensive annotated bibliography of major recent publications on various aspects of Chinese foreign policy. This is the first scholarly book that studies the evolution and key challenges of China's foreign relations during the critical decade 2008-2018 when China grew into a crucial, sometimes assertive power in international affairs.

Prospect Theory and Foreign Policy Analysis in the Asia Pacific Kai He, Huiyun Feng, 2013-01-17. Why does North Korea behave erratically in pursuing its nuclear weapons program? Why did the United States prefer bilateral alliances to multilateral ones in Asia after World War II? Why did China become more military coercion in dealing with the pro-independence Taiwan President Chen Shui-bian after 2000? Why did China compromise in the negotiation of the Chunxiao gas exploration in 2008 while Japan became provocative later in the Sino-Japanese disputes in the East China Sea? North Korea's nuclear behavior, U.S. alliance strategy, China's Taiwan policy, and Sino-Japanese territorial disputes are all important examples of seemingly irrational foreign policy decisions that have determined regional stability and Asian security. By examining major events in Asian security, this book investigates why and how leaders make risky and seemingly irrational decisions in international politics. The authors take the innovative step of integrating the neoclassical realist framework in political science and prospect theory in psychology. Their analysis suggests that political leaders are more likely to take risky actions when their vital interests and political legitimacy are seriously threatened. For each case, the authors first discuss the weaknesses of some of the prevailing arguments, mainly from rationalist and constructivist theorizing, and then offer an alternative explanation based on their political legitimacy prospect theory model. This pioneering book tests and expands prospect theory to the study of Asian security and challenges traditional expected utility-based rationalist theories of foreign policy behavior.

China and the International System Xiaoming Huang, 2013. This book considers the evolving relationship between China and the international system and the interaction between a China of profound change in its identity, capability, and influence and an international system that is itself experiencing a process of far-reaching transformation. It develops an analytical framework that allows us to capture, understand, and explain a more dynamic pattern of agent-structure interaction in China's relationship with the international system. By demonstrating a more dynamic and mutually constitutive relationship between China and the international system, the book explores the extent to which both transform themselves in the process and provides a fuller and more effective assessment of the evolving nature of the relationship. In doing so, it addresses key issues in the current literature on the relationship of China and the international system and helps close the gap in our knowledge of the conditions and consequences of change and stability in the international system as a result of the change in distributions of power, capability, and influence among nation-states.
