The Great Events of Global History, Vol. 10 Various, 2016-11-08 History if we define it as the mere transcription of the written records of former generations can go no farther back than the time such records were first made no farther than the art of writing But now that we have come to recognize the great earth itself as a story book as a keeper of records buried one beneath the other confused and half obliterated yet not wholly beyond

our comprehension now the historian may fairly be allowed to speak of a far earlier day For unmeasured and immeasurable centuries man lived on earth a creature so little removed from the beasts that die so little superior to them that he has left no clearer record than they of his presence here From the dry bones of an extinct mammoth or a plesiosaur Cuvier reconstructed the entire animal and described its habits and its home So too looking on an ancient strange scarce human skull dug from the deeper strata beneath our feet anatomists tell us that the owner was a man indeed but one little better than an ape A few ons later this creature leaves among his bones chipped flints that narrow to a point and the arch ologist taking up the tale explains that man has become tool using he has become intelligent beyond all the other animals of earth Physically he is but a mite amid the beast monsters that surround him but by value of his brain he conquers them He has begun his career of mastery *Ten Great Events* James Johnnot,2015-11-16 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Ten Great Events in History** James Johonnot,2016-07-06 1 The great events in history are those where upon special occasions a man or a people have made a stand against tyranny and have preserved or advanced freedom for the people Sometimes tyranny has taken the form of the oppression of the many by the few in the same nation and sometimes it has been the oppression of a weak nation by a stronger one The successful revolt against tyranny the terrible conflict resulting in the emancipation of a people has always been the favorite theme of the historian marking as it does a step in the progress of mankind from a savage to a civilized state Great Events of History William Francis Collier,1872
