The Pleasures of Memory Sarah Winter, 2015-08-03 What are the sources of the commonly held presumption that reading literature should make people more

just humane and sophisticated Rendering literary history responsive to the cultural histories of reading publishing and education *The Pleasures of Memory* illuminates the ways in which Dickens's serial fiction shaped not only the popular practice of reading for pleasure and instruction but also the school subject we now know as English Winter shows how Dickens's serial fiction instigated specific reading practices by reworking the conventions of religious didactic tracts from which most Victorians learned to read Incorporating an influential associationist psychology of learning founded on the cumulative functioning of memory Dickens's serial novels consistently led readers to reflect on their reading as a form of shared experience Dickens's celebrity authorship Winter argues represented both a successful marketing program for popular fiction and a cultural politics addressed to a politically unaffiliated social activist Victorian readership As late nineteenth century educational reforms consolidated British and American readers into mass populations served by state school systems Dickens's beloved novels came to embody the socially inclusive and humanizing goals of democratic education

Memory Is Another Country Nathalie Huynh Chau Nguyen, 2009-08-25 2010 CHOICE Outstanding Academic Title The act of remembering is a means of bringing the past alive and an imaginative way of dealing with loss It has been the subject of much recent scholarship and is of particular relevance at a time of widespread transnational migration This book is a valuable and original contribution to the field of diaspora studies Based on in depth oral narratives of forty Vietnamese

women it deals with themes both universal and specific to this diaspora divergent memories in families the significance of homeland the return to Vietnam cross cultural relationships intergenerational tensions and the issues of silence and unspoken trauma among Vietnamese refugees It is the first study to apply memory and trauma theories to a substantial base of oral narratives by Vietnamese women in the West Nguyen argues that understanding of these narratives provides not only an insight into the way Vietnamese women have dealt with loss but also illuminates the experience of the wider Vietnamese diaspora and other refugees Remembrance Jude Deveraux,1997-10 When a successful writer is told by a psychic about a past life in Edwardian England and she is hypnotized to remember her past a mistake is made and she returns there
