Tender Tyrant Quenna Tilbury, 1966 **The Tender Tyrant** Victoria Glenn, 1989 *The tender tyrant* Alan Kendall, 1976 **The Tender Tyrant** Jane Andrews, 1981 *Unsung* Christine Ammer, 2001 Examines the contributions of women instrumentalists composers teachers and conductors to American music and suggests why they have gone unnoticed in the past

The ^AComposer as Intellectual Jane F. Fulcher, 2005-08-25 In *The Composer as Intellectual* musicologist Jane Fulcher reveals the extent to which leading French composers between the World Wars were not only aware of but also engaged intellectually and creatively with the central political and ideological issues of the period Employing recent sociological and historical insights she demonstrates the extent to which composers particularly those in Paris since the Dreyfus Affair considered themselves and were considered to be intellectuals and interacted closely with intellectuals in other fields Their consciousness raised by the First World War and the xenophobic nationalism of official culture some joined parties or movements allying themselves with and propagating different sets of cultural and political social goals Fulcher shows how these composers furthered their ideals through the specific language and means of their art rejecting the dominant cultural exclusions or constraints of conservative postwar institutions and creatively translating their cultural values into terms of form and style This was not only the case with Debussy in wartime but with Ravel in the twenties when he became a socialist and unequivocally refused to espouse a narrow exclusionary nationalism It was also the case with the group called Les Six who responded culturally in the twenties and then politically in the thirties when most of them supported the programs of the Popular Front Others could not be enthusiastic about the latter and largely excluded from official culture sought out more compatible movements or returned to the Catholic Church Like many French Catholics they faced the crisis of Catholicism in the thirties when the church not only supported Franco but Mussolini's imperialistic aggression in Ethiopia While Poulenc embraced traditional Catholicism Messiaen turned to more progressive Catholic movements that embraced modern art and insisted that religion must cross national and racial boundaries Fulcher demonstrates how closely music had become a field of clashing ideologies in this period She shows also how certain French composers responded and how their responses influenced specific aspects of their professional and stylistic development She thus argues that from this perspective we can not only better understand specific aspects of the stylistic evolution of these composers but also perceive the role that their art played in the ideological battles and in heightening cultural political awareness of their time

The Strand Magazine Herbert Greenhough Smith, 1894 *Nadia Boulanger and Her World* Jeanice Brooks, 2020-11-19 Nadia Boulanger 1887 1979 was arguably one of the most iconic figures in twentieth century music and certainly among the most prominent musicians of her time For many composers especially Americans from Aaron Copland to Philip Glass studying with Boulanger in Paris or Fontainebleau was a formative moment in a creative career Composer performer conductor impresario and charismatic and inspirational teacher Boulanger engaged in a vast array of

activities in a variety of media from private composition lessons and lecture recitals to radio broadcasts recordings and public performances But how to define and account for Boulanger s impact on the music world is still unclear Nadia Boulanger and Her World takes us from a time in the late nineteenth century when many careers in music were almost entirely closed to women to the moment in the late twentieth century when those careers were becoming a reality Contributors consider Boulanger s work in the worlds of composition musical analysis and pedagogy and explore the geographies of transatlantic and international exchange and disruption within which her career unfolded Ultimately this volume takes its title as a topic for exploration asking what worlds Boulanger belonged to and in what sense we can consider any of them to be hers

Neoclassical Music in America R. James Tobin, 2014-07-02 From the 1920s to the 1950s neoclassicism was one of the dominant movements in American music Today this music is largely in eclipse mostly absent in performance and even from accounts of music history in spite of and initially because of its adherence to an expanded tonality No previous book has focused on the nature and scope of this musical tradition Neoclassical Music in America Voices of Clarity and Restraint makes clear what neoclassicism was how it emerged in America and what happened to it Music reviewer and scholar R James Tobin argues that efforts to define musical neoclassicism as a style largely fail because of the stylistic diversity of the music that fall within its scope However neoclassicists as different from one another as the influential Igor Stravinsky and Paul Hindemith did have a classical aesthetic in common the basic characteristics of which extend to other neoclassicists This study focuses in particular on a group of interrelated neoclassical American composers who came to full maturity in the 1940s These included Harvard professor Walter Piston who had studied in France in the 1920s Harold Shapero the most traditional of the group Irving Fine and Arthur Berger his colleagues at Brandeis Lukas Foss later an experimentalist composer whose origins lay in neoclassicism of the 1940s Alexei Haieff and Ingolf Dahl both close associates of Stravinsky and others Tobin surveys the careers of these figures drawing especially on early reviews of performances before offering his own critical assessment of individual works Adventurous collectors of recordings performing musicians concert and broadcasting programmers as well as music and cultural historians and those interested in musical aesthetics will find much of interest here Dates of composition approximate duration of individual works and discographies add to the work s reference value

affairs with Leonard Bernstein and Gore Vidal No single volume has ever achieved the breadth of this scholarly yet eminently readable compendium It includes overviews of genres as well as fascinating biographical entries on hundreds of figures such as Peter Tchaikovsky Maurice Ravel Sergei Diaghilev Bessie Smith Aaron Copland Stephen Sondheim Alvin Ailey Rufus Wainwright and Ani DiFranco

Teaching Stravinsky Kimberly A. Francis, 2015 It was her love of music especially Stravinsky's music that drew them together This book tells the story of the ever changing nature of Boulanger and Stravinsky's relationship from Boulanger's perspective tracing their interactions from 1931 to 1971 Throughout it asks how Boulanger's professional activity during the turbulent twentieth century intersected with her efforts on behalf of Stravinsky and how this facilitated her own influential conversations with the composer about his works while also drawing her into close contact with his family

Frontier Figures Beth E. Levy, 2012-04-18 Beth Levy has written an elegant work of depth and breadth that gives generous space to the idea of the American West Her discussions of more than a dozen composers and their works some usual suspects others rather unexpected reveal the varied musical ecosystems of the west Levy takes us with her on the trail in prose that is by turns pithy and poetic but always spot on Denise Von Glahn author of *The Sounds of Place Music* and *the American Cultural Landscape* Big and bold as the terrain it covers Beth Levy's *Frontier Figures* takes us on a gratifying road trip traversing American classical compositions that conjure up landscapes from the Middle West to the shores of the Pacific En route we encounter many now famous composers such as Aaron Copland Roy Harris and Virgil Thomson along with others who have faded from view Throughout Levy treats the West as both geographic location and mythologized ideal demonstrating its power on the American musical imagination Carol Oja author of *Making Music Modern* New York in the 1920s

Ferruccio Busoni and His Legacy Erinn E. Knyt, 2017-05-22 An analysis of the composer's unconventional teaching style and philosophy his relationship with his students and his effect on twentieth century music Many students of renowned composer conductor and teacher Ferruccio Busoni had illustrious careers of their own yet the extent to which their mentor's influence helped shape their success was largely unexplored until now Through rich archival research including correspondence essays and scores Erinn E Knyt presents an evocative account of Busoni's idiosyncratic pedagogy focused on aesthetic ideals rather than methodologies or techniques and how this teaching style and philosophy can be seen and heard in the Nordic inspired musical works of Sibelius the unusual soundscapes of Var se the polystylistic meldings of music and technology in Louis Gruenberg's radio operas and film scores the electronic music of Otto Luening and the experimentalism of Philip Jarnach Equal parts critical biography and interpretive analysis Knyt's work compels a reconsideration of Busoni's legacy and puts forth the notion of a Busoni School as one that shaped the trajectory of twentieth century music Erinn Knyt's *Ferruccio Busoni and His Legacy* is a most welcome addition to the literature on Busoni as a fine example of research based on primary sources Bach

The Musical Work of Nadia Boulanger Jeanice Brooks, 2013-04-25 A fresh look at the career of Nadia Boulanger among the most influential musical figures of the entire twentieth century
