antiguos era dividida en 10 meses de entrenamiento y un mes de exhibición delante de una asamblea especial que evaluaba las cualidades competitivas de los candidatos Siempre existió una organización del entrenamiento con el objeto de que los atletas participasen en las competiciones en las mejores condiciones posibles Actualmente sigue siendo uno de los aspectos fundamentales del entrenamiento de los atletas la planificación y organización de su entrenamiento Este libro presenta una visión pedagógica de la organización de una planificación del entrenamiento describiendo en la primera parte las bases que fundamentan la planificación del entrenamiento considerando dicha planificación como la previsión de una secuencia lógica de acontecimientos y tareas que permitan alcanzar los objetivos previamente definidos Se presenta la duración temporal de los diversos modelos de planificación dando particular realce a la planificación a largo plazo en la que la carrera deportiva del atleta se desarrolla con los contenidos que deberán constituir el trabajo a ejecutar en cada etapa de la vida deportiva del atleta joven La planificación anual constituye la tercera parte del trabajo presentado en cada capítulo Por último el libro desarrolla la teoría de las competiciones considerando los momentos de la temporada y los cuidados exigidos en la planificación y participación de los atletas en las competiciones
