Technophobia! Daniel Dinello,2013-08-26 Techno heaven or techno hell If you believe many scientists working in the emerging fields of twenty first century technology the future is blissfully bright Initially human bodies will be perfected through genetic manipulation and the fusion of human and machine later human beings will completely shed the shackles of pain disease and even death as human minds are downloaded into death free robots whereby they can live forever in a heavenly posthuman existence In this techno utopian future humanity will be saved by the godlike power of technology If you believe the authors of science fiction however posthuman evolution marks the beginning of the end of human freedom values and identity Our dark future will be dominated by mad scientists rampaging robots killer clones and uncontrollable viruses In

this timely new book Daniel Dinello examines the dramatic conflict between the techno utopia promised by real world scientists and the techno dystopia predicted by science fiction Organized into chapters devoted to robotics bionics artificial intelligence virtual reality biotechnology nanotechnology and other significant scientific advancements this book summarizes the current state of each technology while presenting corresponding reactions in science fiction Dinello draws on a rich range of material including films television books and computer games and argues that science fiction functions as a valuable corrective to technological domination countering techno hype and reflecting the weaponized religiously rationalized profit fueled motives of such science By imaging a disastrous future of posthuman techno totalitarianism science fiction encourages us to construct ways to contain new technology and asks its audience perhaps the most important question of the twenty first century is technology out of control

Movies of the '90s Riley Webster,2023-11-01 The 1990s was an amazing decade for movies witnessing the release of dozens of incredible films including The Matrix The Shawshank Redemption Pulp Fiction Goodfellas Fargo Jurassic Park and so many more Despite this embarrassment of riches author Riley Webster believes this decade has never received as much praise or as many kudos as it deserves until now Whether you re a serious cinephile a casual viewer or merely seeking a heavy dose of 1990s nostalgia this is the book for you

Representing Religion in Film Tenzan Eaghll,Rebekka King,2022-06-30 This is the first full length exploration of the relationship between religion film and ideology It shows how religion is imagined constructed and interpreted in film and film criticism The films analyzed include The Last Jedi Terminator Cloud Atlas Darjeeling Limited Hellboy The Revenant Religulous and The Secret of my Success Each chapter

offers an explanation of the particular representation of religion that appears in film a discussion of how this representation has been interpreted in film criticism and religious studies scholarship an in depth study of a Hollywood or popular film to highlight the rhetorical social and political functions this representation accomplishes on the silver screen a discussion about how such analysis might be applied to other films of a similar genre Written in an accessible style and focusing on Hollywood and popular cinema this book will be of interest to both movie lovers and experts alike **Schwarzenegger** Gábor Gergely, 2022-10-05 This book analyses the uses of Arnold Schwarzenegger as a foreign star in Hollywood through a film philosophical de westernizing and sonic critical framework It offers very close readings of the film texts of the roles Schwarzenegger performs and the rhetorical strategies he adopts outside his film performances to show that in spite of attempts to occupy the position of an emblematic member of the U S national body Schwarzenegger remains irrevocably outside as an accented migrant body continuously accumulating markers of belonging that by their very necessity attest to their insufficiency The book s central project is to trace back from the uses to which a migrant star such as Schwarzenegger is put on the screen the construction of a sense or idea of a U S national community through the cinema Given that the appeal to the American myth of an immigrant nation that promises to erase difference is fundamental to the Schwarzenegger star persona the central aim of this book is to explore the uses of his stardom as an embodiment of the promise of America and its contradictions and exclusions
