**Words and Distinctions for the Common Good** Gabriel Abend, 2023-07-25 In this book Gabriel Abend argues that social scientists need to focus more on the words and distinctions that their empirical claims depend on He suggests two central questions researchers need to consider First how should word w be used in the social science community Which is to say how should word w be defined should it be used at all and if so on what grounds Second should distinction d be accepted in the social science community For example when a social scientist proposes a distinction between childhood adolescence adulthood and old age should they be accepted and on

what grounds Which distinctions and classifications are good for the social science community Throughout the chapters Abend carefully investigates these core issues and related questions arguing along the way that there is not a definitive answer Instead the book invites the social science community to work together to collectively address these consequential concerns Getting from Here to There? Boryczka, Sarah M. Surak, 2023-06-05 *Beyond Citizenship and the Nation State* examines tensions between a push for clear boundaries defining nation states and who legitimately belongs in them and a pull away from citizenship as capturing what membership in a political community looks like in the twenty first century. Borders signify and represent these physical and metaphorical challenges in a world where anti migration and anti refugee rhetoric are central to the production and reproduction of postcolonial and nationalist political discourse and identity formation. With an expansive view of citizenship, authors challenge dominant narratives, explore alternatives to neoliberal frameworks and link theory and practice through participatory opportunities for non citizen political participation. In doing so they present possibilities for reimagining citizenship for a just more sustainable future. This book will appeal to academics.
