Hellenistic context As a whole the volume reflects on the scholarly reception of Pergamon uncovering how and when a certain view of a cohesive Pergamene culture took shape among modern scholarship and what factors prejudices and assumptions undergirded its creation It also challenges and rethinks the frameworks that shape our view of cultural activity in the Hellenistic world emphasizing the porousness of cultural movements across political boundaries This book will be of interest not only to scholars of Roman culture but also to those interested in the impact of Hellenistic culture on Rome more generally and to scholars engaged with theories and models of cultural influence *Italy.
