Payne, 2015-12 Most measures of the American economy over the past two centuries or so produce a jagged sine wave irrationally exuberant highs leading to painful lows Bubbles lead to panics over and over again Payne has written a short book on the 1920s to demonstrate to undergraduates how this pattern emerges especially how the highs get to be so high specifically during the 1920s which seem to offer instructive examples of the worst practices and circumstances This *How Things Worked* volume explains market mechanisms popular pressures and the workings or failings of regulation While every drop in the economy has its peculiar features that of 1929 has the markings of a classic Provided by publisher *Secret Weapon* Kevin D. Freeman, 2012-01-16 A New York Times bestseller Who's really to blame for America's catastrophic financial meltdown and devastating national recession Contrary to what the Occupy Movement might tell you it's not just greedy Wall Street executives though they certainly earned their share of scorn It's not just failed regulation even though Washington has failed miserably both Republicans and Democrats to protect us As one of America's top financial professionals reveals in this shocking new book the failures of Wall Street and Washington have opened us up to economic warfare with our foreign enemies exploiting our lurking financial weaknesses In *Secret Weapon* Kevin D Freeman unveils how all the evidence including motive means and opportunity points to America's foreign enemies as deliberately pushing our economy over the brink Hearings United States.
