Chartier, 1999 Franco-America in the Making Jonathan K. Gosnell, 2018-07-01 Every June the city of Lowell Massachusetts celebrates Franco American Day raising the Franco American flag and hosting events designed to commemorate French culture in the Americas Though there are twenty million French speakers and people of French or francophone descent in North America making them the fifth largest ethnic group in the United States their cultural legacy has remained nearly invisible Events like Franco American Day however attest to French ethnic permanence on the American topography In Franco America in the Making Jonathan K Gosnell examines the manifestation and persistence of hybrid Franco American literary musical culinary and media cultures in North America especially New England and southern Louisiana To shed light on the French cultural legacy in North America long after the formal end of the French empire in the mid eighteenth century Gosnell seeks out hidden French or Franco identities and sites of memory in the United States and Canada that quietly proclaim an intercontinental French presence examining institutions of higher learning literature folklore newspapers women's organizations and churches This study situates Franco American cultures within the new and evolving field of postcolonial Francophone studies by exploring the story of the peoples and ideas contributing to the evolution and articulation of a Franco American cultural identity in the New World Gosnell asks what it means to be French not simply in America but of America Making It in America Elliott Robert Barkan, 2001-05-01 This collection of over 400 biographies of eminent ethnic Americans celebrates a wide array of inspiring individuals and their contributions to U S history The stories of these 400 eminent ethnic Americans are a testimony to the enduring power of the American dream These men and women from 90 different ethnic groups certainly faced unequal access to opportunities Yet they all became renowned artists writers political and religious leaders scientists and athletes Kahlil Gibran Daniel Inouye Zbigniew Brzezinski Thurgood Marshall Madeleine Albright and many others are living proof that the land of opportunity sometimes lives up to its name Alongside these success stories as historian Elliot R Barkan notes

in his introduction to this volume there have been many failures and many immigrants who did not stay in the United States Nevertheless the stories of these trailblazers visionaries and champions portray the breadth of possibilities from organizing a nascent community to winning the Nobel prize They also provide irrefutable evidence that no single generation and no single cultural heritage can claim credit for what America is
