The links between islands and tourism as sights of pleasure is embodied in the touristification of sun sand and sea Islands are central to the tourist imaginaries that shape islands as touristified places curated designed and commodified for both mass tourism and more niche inclined versions Yet while islands are parlayed for touristic pleasure seekers islands are also home to longstanding communities that have variously battled with the tyranny of distance from metropolitan centres as well as the everyday challenges of climate change effects and benefitted from their isolation from modern day pressures This anthology of articles previously published in the journal *Shima* explores emergent themes that describe how island peoples adapt and respond in localised cultural landscapes as a consequence of tourism expansion It is aimed at researchers in island studies tourism sustainability human geography cultural studies sociology and anthropology The anthology will also be of interest to those with an abiding interest in the trajectories of islands and their peoples particularly where tourism has come to shape landscapes

Music Festivals and Regional Development in Australia Chris Gibson, John Connell, 2016-04-29 Throughout the world the number of festivals has grown exponentially in the last two decades as people celebrate local and regional cultures but perhaps more importantly as local councils and other groups seek to use festivals both to promote tourism and to stimulate rural development However most studies of festivals have tended to focus almost exclusively on the cultural and symbolic aspects or on narrow modelling of economic multiplier impacts rather than examining their long term implications for rural change This book therefore has an original focus It is structured in two parts the first discusses broad issues affecting music festivals globally especially in the context of rural revitalisation The second part looks in more detail at a range of types of festivals commonly found throughout North America Europe and Australasia such as country music jazz opera and alternative music festivals The authors draw on in depth research undertaken over the past five years in a range of Australian places which traces the overall growth of festivals of various kinds examines four of the more important and distinctive music festivals and makes clear conclusions on their significance for rural and regional change
