

How Trade and Macroeconomic Policies Affect Economic Growth and Capital Accumulation in Developing Countries

Ramon Lopez

A stable exchange rate is crucial to economic growth. Export promotion generates faster growth than import liberalization. Economic instability and foreign debt are key determinants of capital growth.

The Policy, Research, and External Affairs Complex distributes PRC Working Papers to disseminate the findings of work in progress and to encourage the exchange of ideas among Bank staff and all others interested in development issues. These papers carry the names of the authors, reflect only their views, and should be used and cited accordingly. The findings, interpretations, and conclusions are the authors' own. They should not be attributed to the World Bank, its Board of Directors, its management, or any of its member countries.

The Bias Against Agriculture Trade And Macroeconomic Policies In Developing Countries:

The Bias Against Agriculture Romeo M. Bautista,Alberto Valdés,1993 The International Food Policy Research Institute gathered experts in agricultural and economic growth from both government and academia to produce this study Drawing on economic theory and empirical evidence the contributors discuss the relative merits of alternative economic policies in a variety of countries including Peru Nigeria Pakistan and the Philippines Annotation c by Book News Inc Portland Or **The**

Bias Against Agriculture Romeo M. Bautista,Alberto Valdés,1993 *Macroeconomic Policy Reforms and Agriculture* Romeo M. Bautista,2002-01-01 This report investigates the income and equity effects of macroeconomic policy reforms in Zimbabwe emphasizing linkages between macroeconomic policies and agricultural performance and agriculture s influence on aggregate income and its distribution Analyses focus on reform of the foreign trade regime public expenditure and tax policy along with the potential benefits of combining these structural changes with various land reform scenarios The study uses a CGE model that provides a policy simulation laboratory in which exogenous policy changes are analyzed for their economywide income and equity effects The report highlights the need for policy complementarities in Zimbabwe that can contribute to equitable growth It should be of interest not only to those concerned with recent economic developments in Zimbabwe but also to those concerned with the broader issues of macroeconomic reform and its ultimate effects **A.I.D.**

Research and Development Abstracts ,1990 *Handbook of Agricultural Economics* Bruce L. Gardner,Gordon C. Rausser,2002-12-17 Annotation The subject matter of agricultural economics has both broadened and deepened in recent years and the chapters of this Handbook present the most exciting and innovative work being done today Following Volume 1 Volume 2 consists of three parts Agriculture Natural Resources and the Environment Agriculture in the Macroeconomy and Agriculture and Food Policy Although agricultural economists have always paid attention to these topics research devoted to them has increased substantially in scope as well as depth in recent years **Agricultural Trade and Rural Development in the Middle East and North Africa** Dean A. DeRosa,1997 *Agriculture and the Macroeconomy* Simon Appleton,Paul Collier,1991 **The African Union and New Strategies for Development in Africa** Said Adejumobi,Adebayo O.

Olukoshi,2008 The early twenty first century witnessed remarkable attempts by Africa s political leadership to promote regional integration as a means of fast tracking economic progress facilitating peace and security consolidating democratic gains and promoting the general welfare of the African people The transition of the Organization of Unity OAU to the African Union AU as well as the foisting of a new economic blueprint for the continent the New Partnership for Africa s Development NEPAD combined with the growing role of the regional economic communities RECs in harmonizing and creating subregional norms and standards in the political and economic arena suggests a new trend towards regionalism in Africa Indeed in the new regional integration architecture the RECs are considered to be the building blocks of the integration process led by the African Union This new impetus of a regional development strategy was largely prompted by the slow pace

of economic progress on the continent the increasing marginalization of Africa in the global economy and the need to create regional resources and standards that would benefit the continent in all spheres of social life A painful realization became obvious that small micro states in Africa sticking to their political independence and sovereignty would hardly make much progress in an increasingly globalised world A macro states approach of regional integration has assumed Africa s new strategy to intervene in and integrate with a globalizing world The current regional trend in Africa has received very little scholarly attention especially in a systematic and comprehensive way This is due partly to the fact that the processes are currently unfolding and there is still uncertainty in the outcomes Poor documentation and the dearth of primary materials especially from the regional institutions also contribute to the lack of scholarly work in this area This study assembles the voices of some of the most seasoned African and Africanist scholars who have constantly in one way or another interacted with the integration process in Africa and kept abreast of the developments therein and seeks to capture those developments in a nuanced manner in the economic political and social spheres The essence of this book is to analyze those processes teasing out the issues problems challenges and major policy recommendations with tentative conclusions on Africa s regional development trajectory The book therefore fills major knowledge and policy gaps in Africa s regional development agenda This book is a landmark contribution in a systematic attempt to comprehend Africa s regional development strategy led by the African Union It examines the background nuances and dimensions of the process which include the basis and historiography of pan Africanism the transition of the OAU to the AU the issue of popular participation in development the NEPAD and APRM initiatives the evolving regional peace and security architecture and the efforts of regional institutions to facilitate democracy human rights rule of law and good governance on the continent The book underscores the fact that formidable obstacles and challenges abound in the trajectory politics and processes of this regional development paradigm especially as Africa navigates an uncertain future in a deeply divided and unequal yet globalised World The book constitutes a major reference material and compendium for a wide range of readers students and scholars of African affairs and African development policy makers both in Africa and the western countries regional and international institutions and organizations and all those interested in the past present and future of Africa s development process

Handbook of Agricultural Economics Robert E. Evenson, Prabhu Pingali, 2009-10-20 Advances in agriculture offer many countries the best and only chance of reducing poverty Yet economic growth and population increases are driving higher demand for food and rising real prices What solutions have successfully promoted agriculture This volume examines national and international food agriculture policies and how they enhance agricultural productivity growth It provides unique historical reviews on policies and their effects and it clearly articulates both positive and negative lessons for promoting agriculture lead growth With chapters written by international authorities this book recognizes that agriculture is not just about providing food for today but about growing it in an environmentally sustainable way that can help people work their ways out of poverty Chapters
