Theology of Creation Thomas S. Hibbs,2023-08-15 This book provides the first sustained philosophical treatment of Pope Francis s Laudato Si and articulates a theology of creation to recover our place within the cosmos In the encyclical Laudato Si Pope Francis discerns beneath the imminent threat of ecological catastrophe an existential affliction of the human person who is lost in the cosmos increasingly alienated from self others nature and God Pope Francis suggests that one must reimagine humanity s place in the created cosmos In this ambitious and distinctive contribution to theological aesthetics Thomas S Hibbs provides the basis for just such a recovery working from Laudato Si to develop a philosophical and theological diagnosis of our ecological dislocation a narrative account of the sources of the crisis and a vision of the way forward Through a critical engagement with the artistic theory of Jacques Maritain Hibbs shows how certain strains of modern art both capture our alienation and anticipate visions of recovered harmony among persons nature and God In the second half of the book in an attempt to fulfill Pope Francis s plea for an aesthetic education and to apply and test Maritain s theory Hibbs examines the work of poets and painters He analyzes the work of poets Robinson Jeffers and William Everson and considers painters Georges Roualt a friend to Maritain and Makoto Fujimura whose notion of culture care overlaps in suggestive ways with Francis s notion of integral ecology Throughout this tour de force Hibbs calls for a commitment to an ecological poetics a project that responds to the crisis of our times by taking poets and painters as seriously as philosophers and theologians
