Technology War And Fascism Vol 1 Collected Papers Of Herbert Marcuse:

Technology, War and Fascism Herbert Marcuse, 2004-01-14 PUBLICITY TITLE Marcuse's most famous book *One Dimensional Man* has sold over 100 000 copies worldwide Kellner and Marcuse both big names in their own rights First in a series of six a must for libraries to have whole sets Revival of HERBERT MARCUSE LEGACY Marcuse's philosophy was so ahead of its time that it's almost more appropriate now than it was in the 1960s Collected Papers of Herbert Marcuse: Technology, war, and fascism Douglas Kellner, 1998 **The Frankfurt School and the Challenge of Fascism** Claudio Corradetti, 2025-10-14 Fascism is a well defined historical phenomenon but its political ideological offshoots have extended into today's democracies How should we understand the mimetic and dissimulating capacity of fascism Starting from the analyses of the exponents of the first Frankfurt School in their rethinking of the Marxian relationship of structure and superstructure this study considers how fascism may be defined as a specific organization of power together with a form of economic planning accompanied by a masochistic propensity to power Drawing on archival research at the Horkheimer and Marcuse Archive in Frankfurt the author guides us through unpublished documents of the Institute of Social Research in the years 1938 1939 concerning the plan to formulate a theory on fascism This was never produced as a single work allowing space instead to the flourishing of different contributions The objective of this book is to provide an internal systemic reading of fascism finding points of mutual integration among critical theorists whenever possible while revealing irreconcilable divergencies when necessary This topical book will be of interest to academics and researchers working in the areas of philosophy the history of ideas legal philosophy critical theory economics and political science **Herbert Marcuse as Social Justice Educator** Charles Reitz, 2025-02-26 Demonstrating the continued relevance of Marcuse's work Herbert Marcuse as Social Justice Educator details how his teachings remain a countervailing force to the conventional wisdom in intellectual and political matters today By drawing on Marcuse's critical analysis of the political economy a profound concern for environmental issues and an explicit critique of educational philosophy this book illuminates not only the content and contours of Marcuse's work but its importance for developing critical social scientific thinking and theoretical insight into contemporary issues such as genocide and ecocide fascism and democratic crises political economy and social inequality and the role of culture and media in forming compliant consumer citizens From Charles Reitz a prominent leader in Marcuse studies this book will be an essential guide for instructors students and learners in sociology social theory political science and environmental studies *The Politics of Unreason* Lars Rensmann, 2017-07-25 The first systematic analysis of the Frankfurt School's research and theorizing on modern antisemitism Although the Frankfurt School represents one of the most influential intellectual traditions of the twentieth century its multifaceted work on modern antisemitism has so far largely been neglected *The Politics of Unreason* fills this gap providing the first systematic study of the Frankfurt School's philosophical psychological political and social research and theorizing on the problem of antisemitism Examining the full

range of these critical theorists contributions from major studies and prominent essays to seemingly marginal pieces and aphorisms Lars Rensmann reconstructs how the Frankfurt School faced with the catastrophe of the genocide against the European Jews explains forms and causes of anti Jewish politics of hate The book also pays special attention to research on coded and secondary antisemitism after the Holocaust and how resentments are politically mobilized under conditions of democracy By revisiting and rereading the Frankfurt School s original work this book challenges several misperceptions about critical theory s research making the case that it provides an important source to better understand the social origins and politics of antisemitism racism and hate speech in the modern world The Frankfurt School s analysis of antisemitism pathbreaking in so many respects has been a curiously neglected aspect of its legacy In his lucid and insightful book Lars Rensmann helps to remedy this gap in critical theory s reception history Thereby he has produced a pioneering study demonstrating convincingly how the theoretical and methodological framework developed by Adorno Horkheimer et al remains in many respects more relevant than ever Richard Wolin author of *The Frankfurt School Revisited And Other Essays on Politics and Society* *The Politics of Unreason* is fascinating and richly written Rensmann digs deeply into critical theory and its arguments These arguments are spelled out in detail and with precision He gives real insights into how critical theory approaches the whole issue of hate and unreason and what critical theory develops as a critique of unreason and its pathological consequences James M Glass coeditor of *Re Imagining Public Space The Frankfurt School in the 21st Century*

Critical Theory: The Basics Martin Shuster, 2024-05-27 *Critical Theory The Basics* brings clarity to a topic that is confusingly bandied about with various meanings today in popular and academic culture First defined by Max Horkheimer in the 1930s critical theory now extends far beyond its original German context around the Frankfurt School and the emergence of Nazism We now often speak of critical theories of race gender anti colonialism and so forth This book introduces especially the core program of the first generation of the Frankfurt School including Horkheimer Theodor W Adorno Erich Fromm and Herbert Marcuse and shows how this program remains crucial to understanding the problems ideologies and systems of the modern world including capitalism racism sexism and the enduring problems of colonialism It explores basic questions like What is critical theory What can critical theory be What should it be Why and how does critical theory remain vital to understanding the contemporary world including notions of self society politics art religion culture race gender and class With suggestions for further reading this book is an ideal starting point for anyone seeking an accessible but robust introduction to the richness and complexity of this tradition and to its continuing importance today **The Routledge**

Handbook of Critical Pedagogies for Social Work Christine Morley, Phillip Ablett, Carolyn Noble, Stephen Cowden, 2020-01-20 *The Routledge Handbook of Critical Pedagogies for Social Work* traverses new territory by providing a cutting edge overview of the work of classic and contemporary theorists in a way that expands their application and utility in social work education and practice thus providing a bridge between critical theory philosophy and social work Each chapter

showcases the work of a specific critical educational philosophical and or social theorist including Henry Giroux Michel Foucault Cornelius Castoriadis Herbert Marcuse Paulo Freire bell hooks Joan Tronto Iris Marion Young Karl Marx Antonio Gramsci and many others to elucidate the ways in which their key pedagogic concepts can be applied to specific aspects of social work education and practice The text exhibits a range of research based approaches to educating social work practitioners as agents of social change It provides a robust and much needed alternative paradigm to the technique driven conservative revolution currently being fostered by neoliberalism in both social work education and practice The volume will be instructive for social work educators who aim to teach for social change by assisting students to develop counter hegemonic practices of resistance and agency and reflecting on the pedagogic role of social work practice more widely The volume holds relevance for both postgraduate and undergraduate qualifying social work and human services courses around the world

Weimar Germany Eric D. Weitz, 2018-09-25 Weimar Centennial edition with a new preface by the author Title page *Who Paid the Pipers of Western Marxism?* Gabriel Rockhill, 2025-12 Who Paid the Pipers of Western Marxism offers a crash course in the history of imperialist propaganda as well as in the Marxist method for analyzing culture and ideology Author Gabriel Rockhill demonstrates the explanatory and transformative superiority of a dialectical and historical materialist approach while elucidating how the world of ideas is a crucial site of class struggle He then engages in a meticulous counter history of the Frankfurt School which made a foundational contribution to Western Marxism by situating it within the global relations of class struggle and the imperialist war on actually existing socialism With the explicit and direct backing of powerful elements in the capitalist ruling class and the world's leading imperialist state the Frankfurt School developed a widely promoted form of compatible critical theory as an ersatz for dialectical and historical materialism The volume concludes by bringing to the fore the positive project that serves as the guiding methodological framework for the work as a whole a thoroughly anticolonial and anti imperialist Marxism dedicated to building socialism in the real world Drawing on extensive archival research to pull back the curtain on ruling class machinations Rockhill's book elucidates how the intellectual world war on the socialist alternative has sought to shore up and promote a compatible left intelligentsia while misrepresenting maligning and trying to destroy the revolutionary left

Inhuman Conditions Pheng Cheah, 2009-07-01 Through an examination of debates about cosmopolitanism and human rights Cheah questions key ideas about what it means to be human and reveals the flaws in claims about the imminent decline of the nation state and the obsolescence of popular nationalism
