*Global Cooperation* Sai Felicia Krishna-Hensel, 2017-03-02 The twenty first century global community is confronted with unprecedented challenges as well as unique opportunities The degree to which it can establish and institutionalize norms and mechanisms designed to promote and sustain meaningful global cooperation will determine the future course of civilization This volume brings together a broad range of scholars to highlight some of the areas of contemporary transnational cooperation and to examine the scope and levels at which cooperation can and does take place The study examines the issue of weapons of mass destruction explores the promises of biotechnology and space technology and investigates the roles of global conventions and institutions as strategies for addressing the common threats facing the international system In short the volume raises important timely issues regarding the challenges and opportunities confronting the global community which both policy makers and academicians will find informative and thought provoking in their efforts to understand the nature and complexity of the twenty first century global community      Pittsburgh and the Appalachians Joseph L. Scarpaci, 2010-06-15 Few American cities reflect the challenges and promise of a twenty first century economy better than Pittsburgh and its surrounding region Once a titan of the industrial age Pittsburgh flourished from the benefits of its waterways central location and natural resources bituminous coal to fire steel furnaces salt and sand for glass making gas oil and just enough ore to spark an early iron industry Today like many cities located in the manufacturing triangle that stretches from Boston to Duluth to St Louis Pittsburgh has made the transition to a service based economy Pittsburgh and the Appalachians presents a collection of eighteen essays that explore the advantages and disadvantages that Pittsburgh and its surrounding region face in the new global economy from the perspectives of technology natural resources workforce and geography It offers an extensive examination of the processes and factors that have transformed much of industrial America during the past half century and shows how other cities can learn from the steps Pittsburgh has taken through redevelopment green space acquisition air and water quality improvement cultural revival and public private partnerships to create a more livable economically viable region for future populations      **Productivity in the U.S. Services Sector** Jack E. Triplett, Barry P. Bosworth, 2004-09-21 The services industries which include jobs ranging from flipping hamburgers to providing investment advice can no longer be characterized as they have in the past as a stagnant sector marked by low productivity growth They have emerged as one of the most dynamic and innovative segments of the U S economy now accounting for more than three quarters of gross domestic product During the 1990s 19 million additional jobs were created in this sector while growth was stagnant in the goods producing sector Here Jack Triplett and Barry Bosworth analyze services sector productivity demonstrating that fundamental changes have taken place in this sector of the U S economy They show that growth in the services industries fueled the post 1995 expansion in the U S productivity and assess the role of

information technology in transforming and accelerating services productivity In addition to their findings for the services sector as a whole they include separate chapters for a diverse range of industries within the sector including transportation and communications wholesale and retail trade and finance and insurance The authors also examine productivity measurement issues chiefly statistical methods for measuring services industry output They highlight the importance of making improvements within the U S statistical system to provide the more accurate and relevant measures essential for analyzing productivity and economic growth
