Owens, 2009-08-19 *Television Production* offers you a very practical guide to professional TV and video production techniques.

You will find straightforward description and explanations of the equipment you will use and discover the best ways to use it. You will also learn how to anticipate and quickly overcome typical everyday problems. You will explore in detail all the major features of television production, learning the secrets of top grade camerawork, persuasive lighting techniques, effective sound treatment as well as the subtle processes of scenic design and the art of video editing. Successful program making is about communication and persuasion. It is not merely a matter of knowing which buttons to press but how to influence and persuade your audience, hold their attention, develop their interest and arouse their emotions. This book tells you how to do all this and much more. The fourteenth edition has been completely revamped. New Coauthor Jim Owens brings his wealth of teaching and international broadcasting experience. New. In brilliant full color for the first time, hundreds of new photos and illustrations demonstrate the techniques presented in the book. New. Thoroughly overhauled with the latest developments in tools and technology. New. Focus on the latest equipment, delivery methods and convergence of digital technology.

Effective TV Production Gerald Millerson, 1994-04-11. *Effective TV Production* gives a succinct but thorough overview of the production process. Whatever your role in television, this book outlines the main functions of your job, placing them in the context of all other operations and showing how they are interrelated. The book shows how, within the often severe limitations of time and money, it is possible to originate interesting and competitive television programmes. It describes the essentials of good camerawork and relates them to considerations of audio, staging, lighting, make up and wardrobe techniques and the way in which a production is developed in approach and style from the initial stages to the moment of shooting. This edition is substantially revised to reflect developments in technology and contemporary production styles. Gerald Millerson's books on television have long been acknowledged as among the best ever published. *An Introduction to Film and TV Production* Joseph Richie, Karen Russell, Airielle J. Taylor, Tameka Winston, 2022-07-29. This streamlined step by step guide provides students and newcomers in the field of media with an overview of the complete production process from conceiving of an idea to marketing the final product. Readers will learn what it takes to create a concept, develop it and then market and sell it. Chapters discuss pitching, producing, marketing, visionary concepts, financing and distributing content. Focused on traditional and non traditional platforms including social media, websites and online advertising, this book explores currently evolving media platforms, ideas and practices and provides examples of how to navigate these unique creative processes. Interviews with business executives offer insider tips and tricks to creating a marketable project. In this book you will learn how to distinguish between a great idea and a marketable idea. Condense your concept into an effective elevator pitch. Build a basic business plan. Create a marketing strategy, be it traditional, digital or both. Establish a personal brand and portfolio that will grab the right attention. This book will be of great help to the student, independent filmmaker and content creator looking to understand the process of getting their work produced, distributed and marketed. **The Business of TV Production** Craig Collie, 2007-08-06.
