Television Courtroom Broadcasting Effects Paul Lambert, 2013-07-05 Court and policy makers have increasingly had to deal with and sometimes even embrace technology from podcasts to the Internet. Televised courtroom broadcasting especially remains an issue. The debate surrounding the US Supreme Court and federal courts as well as the great disparity between different forms of television courtroom broadcasting rages on. What are the effects of television courtroom broadcasting? Does research support the arguments for or against? Despite three Supreme Court cases on television courtroom broadcasting, the common thread between the cases has not been highlighted. The Supreme Court in these cases maintains a common theme: there is not a sufficient body of research on the effects of televising courtroom proceedings to resolve the debate in a confident manner.

How Television Shapes Our Worldview Deborah A. Macey, Kathleen M. Ryan, Noah J. Springer, 2014-05-15 Over the last half of the twentieth century, television has become the predominant medium through which the public accesses information about the world. Through the news, situation comedies, police dramas, and commercials, we learn about the world around us and our role within it. These genres, narratives, and cultural forms are not simply entertainment but powerful socializing agents that show the world as we might never see it in real life. How Television Shapes Our Worldview brings together a diverse set of scholars, methodologies, and theoretical frameworks to interrogate the ways through which television molds our vision of the outside world. The essays include advertising and public relations analyses, audience interviews, and case studies that touch on genres ranging from science fiction in the 1970s to current reality television. Television truly provides a powerful influence over how we learn about the world around us and understand its social processes.
