Pedagogical, Methodological, and Activist Approaches to Social Justice Dolores Delgado Bernal, Rebeca Burciaga, Judith Flores Carmona, 2017-10-02 While the genre of testimonio has deep roots in oral cultures and in Latin American human rights struggles the publication and subsequent adoption of *This Bridge Called My Back* Moraga Anzald a 1983 and more recently *Telling to Live Latina Feminist Testimonios* Latina Feminist Group 2001 have demonstrated the power of testimonio as a genre that exposes brutality disrupts silencing and builds solidarity among women of colour Within the field of education scholars are increasingly taking up testimonio as a pedagogical methodological and activist approach to social justice which transgresses traditional paradigms in academia Unlike the more usual approach of researchers producing unbiased knowledge the testimonio challenges objectivity by situating the individual in communion with a collective experience marked by marginalization oppression or resistance This approach has resulted in new understandings about how marginalized communities build solidarity and respond to and resist dominant culture laws and policies that perpetuate inequity This book contributes to our understanding of testimonio as it relates to methodology pedagogy research and reflection in pursuit of social justice A common thread among the chapters is a sense of political urgency to address inequities within Chicana o and Latina o communities This book was originally published as a special issue of *Equity Excellence in Education* Intersectionality Patricia Hill Collins, Sirma Bilge, 2020-04-17 The concept of intersectionality has become a central topic in academic and activist circles alike But what exactly does it mean and why has it emerged as such a vital lens through which to explore how social inequalities of race class gender sexuality age ability and ethnicity shape one another In this fully revised and expanded second edition of their popular text Patricia Hill Collins and Sirma Bilge provide a much needed introduction to the field of intersectional knowledge and praxis Analyzing the emergence growth and contours of the concept of intersectionality the authors also consider its global reach through an array of new topics such as the rise of far right populism reproductive justice climate change and digital environments and cultures Accessibly written and drawing on a plethora of lively examples to illustrate its arguments the book highlights intersectionality s potential for understanding complex architecture of social and economic inequalities and bringing about social justice oriented change Intersectionality will be an invaluable resource for anyone grappling with the main ideas debates and new directions in this field Also available as an audiobook Latino/a Thought Francisco H. Vázquez, 2009-01-16 *Latino a Thought* brings together the most important writings that shape Latino consciousness culture and activism today This historical anthology is unique in its

Identity in Latin American and Latina Literature Kathryn Quinn-Sánchez, 2014-12-18 This study demonstrates the ways that Latina authors contest how power and space exploit women while simultaneously subverting the Nation State through reimagining a counter space where new definitions of the self lie beyond Power's reach Moreover this book delves into how both Power and Space collude to uphold the out of date sexist racist and classist societal

norms that Eurocentrism and history continue to cleave to as the defining qualities of the nation and its citizens With the proliferation of Latin literature within the United States an ideological readjustment is taking place whereby several late twentieth and early twenty first century authors contest the State's role in defining its citizens by exposing the unjust role that Space and Power play With this in mind the author examines several literary versions of identity to explore how certain authors reject and subvert the social mores against which present day citizens are measured especially within government or State institutions but also within families and neighborhoods The literary works that are analyzed cover a period of twenty five years ending in 2010 Several of these texts rewrite the national allegory from the point of view of the marginalized while others demonstrate how an individual successfully renegotiates her identity gender social class or ethnicity from being a disadvantage to being an identity marker to celebrate The authors defy the place that women are still relegated to by representing several characters who consciously decide that it is time to battle the forces that would keep them powerless in the public arena Above all these texts are anti Power the protagonists refuse to accept the societal forces which constantly barrage them defining them as worthless These authors and their characters challenge everything that historically has kept women relegated to a space of weakness
