Embedded Racism Debito Arudou, 2021-11-26 Despite domestic constitutional provisions and international treaty promises Japan has no law against racial discrimination

Consequently businesses around Japan display Japanese Only signs denying entry to all foreigners on sight Employers and landlords routinely refuse jobs and apartments to foreign applicants Japanese police racially profile foreign looking bystanders for invasive questioning on the street Legislators administrators and pundits portray foreigners as a national security threat and call for their segregation and expulsion Nevertheless Japan's government and media claim there is no discrimination by race in Japan therefore no laws are necessary How does Japan resolve the cognitive dissonance of racial discrimination being unconstitutional yet not illegal Embedded Racism untangles Japan's complex narrative on race Starting with case studies of hundreds of Japanese Only exclusionary businesses it carefully analyzes the social construction of Japanese identity through laws public policy jurisprudence and media messages It reveals how the concept of a Japanese has been racialized to the point where one must look Japanese to have equal civil and human rights in Japan Completely revised and updated for this Second Edition including landmark events like the 2020 Tokyo Olympics the Covid Pandemic and the Carlos Ghosn Case Embedded Racism is the product of three decades of research and fieldwork by a scholar living in Japan as a naturalized Japanese citizen It offers a perspective into how Japan's entrenched misunderstood and deliberately overlooked racial discrimination not only undermines Japan's economic future but also emboldens white supremacists worldwide who see Japan as their template ethnostate Immigration and Citizenship in Japan Erin Aeran

Chung, 2010-03-31 Japan is currently the only advanced industrial democracy with a fourth generation immigrant problem As other industrialized countries face the challenges of incorporating post war immigrants Japan continues to struggle with the incorporation of pre war immigrants and their descendants Whereas others have focused on international norms domestic institutions and recent immigration this book argues that contemporary immigration and citizenship politics in Japan reflect the strategic interaction between state efforts to control immigration and grassroots movements by multi generational Korean resident activists to gain rights and recognition specifically as permanently settled foreign residents of Japan Based on in depth interviews and fieldwork conducted in Tokyo Kawasaki and Osaka this book aims to further our understanding of democratic inclusion in Japan by analyzing how those who are formally excluded from the political process voice their interests and what factors contribute to the effective representation of those interests in public debate and policy Local Citizenship in Recent Countries of Immigration Takeyuki Tsuda, 2006-01-01 Since the late 1980s Japan has been experiencing significant levels of immigration primarily from Asian and Latin American countries due to severe domestic labor shortages Local Citizenship in Recent Countries of Immigration examines the various dimensions of local citizenship in Japan with comparative studies from South Korea Italy and Spain **Encyclopedia of Race, Ethnicity, and Society** Richard T. Language and Citizenship in Japan

Nanette Gottlieb,2012-12-12 The relationship between language and citizenship in Japan has traditionally been regarded as a fixed tripartite Japanese citizenship means Japanese ethnicity which in turn means Japanese as one's first language Historically most non Japanese who have chosen to take out citizenship have been members of the oldcomer Chinese and Korean communities born and raised in Japan But this is changing the last three decades have seen an influx of newcomer economic migrants from a wide range of countries many of whom choose to stay The likelihood that they will apply for citizenship to access the benefits it confers means that citizenship and ethnicity can no longer be assumed to be synonyms in Japan This is an important change for national discourse on cohesive communities This book's chapters discuss discourses educational practices and local linguistic practices which call into question the accepted view of the language citizenship nexus in lived contexts of both existing Japanese citizens and potential future citizens Through an examination of key themes relating both to newcomers and to an older group of citizens whose language practices have been shaped by historical forces these essays highlight the fluid relationship of language and citizenship in the Japanese context
