revenge against adulterous husbands and broader analyses of social economic and geographical patterns of behavior She shows how the Veronese at all social levels attempted to better their familial and personal fortunes by creatively molding wedding rituals to fit their particular circumstances or engaging in the significant but until now little understood practices of concubinage clandestine marriage or informal marriage dissolution Eisenach also evaluates the first half century of religious reforms in Verona as the leading pre Tridentine bishop Gian Matteo Giberti and his successors challenged common practices and understandings in sermons treatises confessionals and court Emphasizing the limitations of what the religious authorities could impose on the people she explores how learned and popular notions of marriage family and gender shaped each other as they were put into action in the strategies of individual Veronese
