of America's greatest cities some of Louis L. Amour's most compelling fiction was set in his own time. Here are tales of innocents caught in the schemes of criminals, detectives hunting down truths that hide even more lies, gamblers and beauties, wiseguys and cops. Here is a world populated by the kinds of people who risk their lives to right a wrong, make a buck or save a friend. Brimming with thought-provoking characters and situations from a man who regains consciousness in a burning house surrounded by a fortune in cash to an innocent in a seedy diner who meets a vicious killer who is supposed to be long dead, these thrilling atmospheric stories course with authenticity and bear the mark of a timeless master.     A Manual of Gold and Silver Coins of All Nations, Struck Within the Past Century Jacob Reese Eckfeldt, William Ewing Du Bois, 1842. The book contains one medal engraving from a daguerreotype by Joseph Saxton of the front of the Mint using a medal ruling machine to copy a relief executed by Christian Gobrecht from the daguerreotype. This book is considered the first publication from a daguerreotype in the United States. A remarkable example of this little-used process and of major importance in the history of photography and photomechanical printing in the United States. Joseph Saxton not only produced the oldest extant daguerreotype now in the United States but also invented the modification to the ruling machine used for this publication.
