Ten Millionaires And Ten Million Beggars A Study Of Income:

Ten Millionaires and Ten Million Beggars Mwangi Wa. Githinji, 2019-07-30 This title was first published in 2000 An analysis of income distribution and development in Kenya seeking to increase the reader's understanding of the political economy of that country The author offers three contributions He provides an estimate of income inequality in Kenya He presents data on time allocation in Kenya which makes it possible to compare the distribution of work with the distribution of income Finally he attempts to construct a class analysis that goes beyond the debates of the 1970s and 1980s and goes on to draw a number of important conclusions from his findings **Civil Society in Action**, 2001 **Ten Millionaires and Ten**

Million Beggars Mwangi wa Githinji, 1997 **Local case studies in African land law** Robert Home, 2011 **Mutunga: Willy Mutunga Under Cover**, 2023-06-02 For over 30 years Willy Mutunga has blazed the trail in starting many important public conversations about remaking Kenya and the wider world into a better society As a public intellectual he has consistently challenged convenient stereotypes in an effort to bring down the social barriers erected by fear and ignorance and led in persuading individuals and communities to re-examine widely held prejudices and to start difficult dialogues Between 2006 and 2011 Mutunga wrote a weekly column in the Saturday Nation It is from these contributions under the pen name Cabral Pinto a combination of the surnames of the two African ideologues he greatly admired that the 146 articles in this volume are selected The clarity of Willy's moral voice is unmistakable on a broad variety of themes ranging from exhortations for an alternative leadership that would deliver a human rights state to an unapologetic call for mass action as a peaceful way to bring change This collection by Cabral Pinto is the story of Kenya's long democracy struggle told by a pro democracy activist **Land, Poverty and Livelihoods in an Era of Globalization** A. Haroon Akram-Lodhi, Saturnino M. Borrás Jr., Cristóbal Kay, 2007-01-24 Here internationally renowned scholars explore the structural causes of rural poverty income inequality and the processes of social exclusion and political subordination across Africa Asia and Latin America

Inequality, Socio-cultural Differentiation and Social Structures in Africa Dieter Neubert, 2019-06-25 This book contends that conventional class concepts are not able to adequately capture social inequality and socio-cultural differentiation in Africa Earlier empirical findings concerning ethnicity neo-traditional authorities patron-client relations lifestyles gender social networks informal social security and even the older debate on class in Africa have provided evidence that class concepts do not apply yet these findings have mostly been ignored For an analysis of the social structures and persisting extreme inequality in African societies and in other societies of the world we need to go beyond class consider the empirical realities and provincialise our conventional theories This book develops a new framework for the analysis of social structure based on empirical findings and more nuanced approaches including livelihood analysis and intersectionality and will be useful for students and scholars in African studies and development studies sociology social anthropology political science and geography **Property and Political Order in Africa** Catherine Boone, 2014-02-10 In sub-Saharan Africa

property relationships around land and access to natural resources vary across localities districts and farming regions These differences produce patterned variations in relationships between individuals communities and the state This book captures these patterns in an analysis of structure and variation in rural land tenure regimes In most farming areas state authority is deeply embedded in land regimes drawing farmers ethnic insiders and outsiders lineages villages and communities into direct and indirect relationships with political authorities at different levels of the state apparatus The analysis shows how property institutions institutions that define political authority and hierarchy around land shape dynamics of great interest to scholars of politics including the dynamics of land related competition and conflict territorial conflict patron client relations electoral cleavage and mobilization ethnic politics rural rebellion and the localization and nationalization of political competition

Humanitarian Fictions Megan Cole Paustian, 2024-01-02 Humanitarianism has a narrative problem Far too often aid to Africa is envisioned through a tale of Western heroes saving African sufferers While labeling white savior narratives has become a familiar gesture it doesn't tell us much about the story as story *Humanitarian Fictions* aims to understand the workings of humanitarian literature as they engage with and critique narratives of Africa Overlapping with but distinct from human rights humanitarianism centers on a relationship of assistance focusing less on rights than on needs less on legal frameworks than moral ones less on the problem than on the nonstate solution Tracing the white savior narrative back to religious missionaries of the nineteenth century *Humanitarian Fictions* reveals the influence of religious thought on seemingly secular institutions and uncovers a spiritual collectivist streak in the discourse of humanity Because the humanitarian model of care transcends the boundaries of the state and its networks touch much of the globe *Humanitarian Fictions* redraws the boundaries of literary classification based on a shared problem space rather than a shared national space The book maps a transnational vein of Anglophone literature about Africa that features missionaries humanitarians and their so called beneficiaries Putting humanitarian thought in conversation with postcolonial critique this book brings together African British and U S writers typically read within separate traditions Paustian shows how the novel with its profound sensitivity to narrative can enrich the critique of white saviorism while also imagining alternatives that give African agency its due

Local Women, Global Science Karen M. Booth, 2004-05-12 Karen Booth looks closely at the operation of two clinics in Nairobi explores how internationally funded nationally sanctioned interventions to stop the spread of HIV are focused on the working class poor those least able to challenge traditional patterns of behaviour including male dominance

African Urban Economies D. Bryceson, D. Potts, 2005-12-16 Are Africa's most populous and economically dominant cities a force to reckon with in the twenty first century This book analyzes the economies of East and Southern Africa's apex cities probing how they have altered structurally over time and their current sources of economic vitality and vulnerability at local national and international levels Case study chapters focusing on Johannesburg Chitungwiza Gaborone Maputo Dar es Salaam Mombasa Nairobi Kampala and Mogadishu shed new light on contemporary African urban prospects

and problems **Poverty Reduction Strategies in Africa** Mike O. Odey, Toyin Falola, 2017-09-08 A fundamental question about contemporary Africa is why does Africa remain so poor long after the departure of the European Colonial domination and in the midst of so many natural resources Poverty Reduction Strategies in Africa provides new understandings of the persistent issue of poverty in Sub Saharan Africa and makes recommendations for policy frameworks to help African governments alleviate poverty Each chapters uses case studies to review the old strategies for resolving the problem of poverty in the continent and make the case for new initiatives to address poverty The contributors focus on practical and day to day issues as the best approach to formulate and implement poverty reduction strategies in contemporary Africa This book is invaluable reading for students and scholars of African politics and development **Complying With Colonialism** Suvi Keskinen, Salla Tuori, Sara Irni, Diana Mulinari, 2016-05-23 Complying with Colonialism presents a complex analysis of the habitual weak regard attributed to the colonial ties of Nordic Countries It introduces the concept of colonial complicity to explain the diversity through which northern European countries continue to take part in post colonial processes The volume combines a new perspective on the analysis of Europe and colonialism whilst offering new insights for feminist and postcolonial studies by examining how gender equality is linked to European values thus often European superiority With an international team of experts ranging from various disciplinary backgrounds this volume will appeal not only to academics and scholars within postcolonial sociology social theory cultural studies ethnicity gender and feminist thought but also cultural geographers and those working in the fields of welfare politics and International Relations Policy makers and governmental researchers will also find this to be an invaluable source Kenya Charles Hornsby, 2013-03-01 Since independence from Great Britain in 1963 Kenya has survived five decades as a functioning nation state holding regular elections its borders and political system intact and avoiding open war with its neighbours and military rule internally It has been a favoured site for Western aid trade investment and tourism and has remained a close security partner for Western governments However Kenya s successive governments have failed to achieve adequate living conditions for most of its citizens violence corruption and tribalism have been ever present and its politics have failed to transcend its history The decisions of the early years of independence and the acts of its leaders in the decades since have changed the country s path in unpredictable ways but key themes of conflicts remain over land money power economic policy national autonomy and the distribution of resources between classes and communities While the country s political institutions have remained stable the nation has changed its population increasing nearly five fold in five decades But the economic and political elite s struggle for state resources and the exploitation of ethnicity for political purposes still threaten the country s existence Today Kenyans are arguing over many of the issues that divided them 50 years ago The new constitution promulgated in 2010 provides an opportunity for national renewal but it must confront a heavy legacy of history This book reveals that history **The Rise of Africa's Middle Class** Henning Melber, 2016-12-15 Across Africa a burgeoning middle class has become the poster child for

the Africa rising narrative Ambitious aspirational and increasingly affluent this group is said to embody the values and hopes of the new Africa with international bodies ranging from the United Nations Development Programme to the World Bank regarding them as important agents of both economic development and democratic change This narrative however obscures the complex and often ambiguous role that this group actually plays in African societies Bringing together economists political scientists anthropologists and development experts and spanning a variety of case studies from across the continent this collection provides a much needed corrective to the received wisdom within development circles and provides a fresh perspective on social transformations in contemporary Africa
