The Tenacious Mars Effect Suitbert Ertel, Kenneth Irving, 1996 *Skepticism and Humanism* Paul Kurtz, 2023-05-31 As we begin the third millennium there is cause for cautious optimism regarding the human prospect Democratic revolutions and the doctrine of universal human rights have captured the imagination of large sectors of humanity while major advances in science and technology continue to conquer disease and extend life contributing to rising standards of living affluence and cultural freedom on a worldwide basis Paradoxically at the same time ancient authoritarian fundamentalist religions have grown in vitriolic intensity along with bizarre New Age media driven paranormal belief systems Also surprising is the resurgence of primitive tribal and ethnic loyalties unleashing wars of intolerance and bitterness In *Skepticism and Humanism* Paul Kurtz locates these threatening developments within a long standing and largely unchallenged theological worldview He proposes as an alternative to religion a new cultural paradigm rooted in scientific naturalism rationalism and a humanistic outlook An estimated 60 percent of scientists are atheists or agnostics However the skeptical world view has been given little currency even in advanced societies because of a cultural prohibition against the criticism of religion At the same time science has become increasingly narrow and specialized so that few people can draw on its broader intellectual and cultural implications *Skepticism and Humanism* attempts to meet this need It defends skepticism as a method for developing reliable knowledge by using scientific inquiry and reason to test all claims to truth It also defends scientific naturalism an evolutionary view of nature life and the human species Kurtz sees the dominant religious doctrines as drawn from an agricultural nomadic past and emphasizes the need for a new outlook applicable to the postindustrial information age At the same time he rejects postmodernism for abandoning science and embracing a form of nihilism There can be no doubt that as a new global civilization emerges scientific naturalism rationalism and secular humanism have something significant to say about the meaning of life *Skepticism and Humanism* shows how they can to foster democratic values and social prosperity The book will be important for philosophers scientists and all those concerned with contemporary issues *Head and Heart* Victor Mansfield, 2002-07-01 This unusual book tells the story of an astrophysicist's search for meaning from psychological philosophical and spiritual points of view Mansfield weaves personal memoir with clear scientific discussion and quotes such famous thinkers and writers as Steven Weinberg Jane Goodall Joseph Campbell C G Jung Nelson Mandela Robert Frost and the Sufi poet Rumi In plain language Mansfield explores radio astronomy the nature of time relativity cosmological expansion and quantum mechanics with personal examples of meditation dreams and synchronicity to show that spiritual experience offers a fundamentally different window into reality than that given by science And he tackles these questions What is invisible matter Am I merely a complex tangle of atoms and molecules controlled by the laws of physics What is the nature of soul How is modern science a form of religion You will be charmed by Mansfield's anecdotes to dramatize his own struggles with such questions In a culture where the relationship between science and spirituality continues to be strained he offers

hope for a higher synthesis that embraces dissenting worldviews and encourages compassionate action in the world

Cosmic Influences on Humans, Animals, and Plants John T. Burns, 1997 This annotated bibliography makes available to the general reader and scholar a broad survey of the scientific literature on alleged cosmic influences on humans animals and plants To be included a study must involve the collection of data or be a commentary on studies based on data As some of the topics covered are still quite controversial in nature while other topics have been scientifically studied to some extent the terms alleged claimed or suggested are noted in the citations to remind the reader that a particular study has not necessarily been proven to be scientifically valid The four parts of Cosmic Influences on Humans Animals and Plants are organized around alleged effects of solar activity the moon the planets and possible mechanisms for such actions Some effects that the sun and moon are known to have on our daily lives such as the cycles of light and dark and the lunar tides have not been included because of their commonality However other effects such as those influences the moon has been shown to have over some animals have been included for the sake of completeness With subject and author indexes The Secrets of the Vaulted Sky David Berlinski, 2003 Explores the enigmatic world of astrology one of the oldest predictive arts Revealing its complexities and scientific merit *The Synchronicity Key* David Wilcock, 2014-07-29 Unlock the key to a universal life force in this astonishing book from the New York Times bestselling author of The Source Field Investigations and Awakening in the Dream The Source Field Investigations was a New York Times Wall Street Journal and USA Today bestseller that uncovered hidden science and lost prophecies to illuminate an entirely new understanding of our world today Now in The Synchronicity Key David Wilcock embarks on an astonishing investigation into what lies beyond finding proof that everything in our lives is not only connected but it also influences everything else Using history astrology and synchronicity theory among other concepts Wilcock shows that there is hidden architecture within time guiding individuals and nations through a system of enlightenment Joseph Campbell called the Hero's Journey Historical events occur in shockingly precise repeating cycles of time as a result Once we understand and identify the hidden laws of this seemingly random synchronicity we are left with a remarkable blueprint of how best to lead our lives in this uncertain and confusing world The Gold Leaf Lady and Other Parapsychological Investigations Stephen E. Braude, 2008-11-15 For over thirty years Stephen Braude has studied the paranormal in everyday life from extrasensory perception and psychokinesis to mediumship and materialization The Gold Leaf Lady and Other Parapsychological Investigations is a highly readable and often amusing account of his most memorable encounters with such phenomena Here Braude recounts in fascinating detail five particular cases some that challenge our most fundamental scientific beliefs and others that expose our own credulousness Braude begins with a south Florida woman who can make thin gold colored foil appear spontaneously on her skin He then travels to New York and California to test psychokinetic superstars and frauds like Joe Nuzum who claim to move objects using only their minds Along the way Braude also investigates the startling allegations of K R a policeman in Annapolis who believes he can transfer images from

photographs onto other objects including his own body and Ted Serios a deceased Chicago elevator operator who could make a variety of different images appear on Polaroid film Ultimately Braude considers his wife's surprisingly fruitful experiments with astrology which she has used to guide professional soccer teams to the top of their leagues as well as his own personal experiences with synchronicity a phenomenon he argues that may need to be explained in terms of a refined extensive and dramatic form of psychokinesis Heady provocative and brimming with eye opening details and suggestions *The Gold Leaf Lady and Other Parapsychological Investigations* will intrigue both adherents and detractors of its controversial subject matter alike

Ghosts R. C. Finucane, 1996-06 Throughout history people have reported seeing ghosts But a Victorian ghost is in many respects a very different phenomenon from a ghost in Classical Greece or in medieval Europe Finucane surveys reports of ghosts from ancient Greece the early Christian era the Reformation the Victorian age and through the twentieth century He asks such questions as How have the physical aspects claimed for ghosts varied from age to age What differences are there in the functions and intentions ascribed to ghosts How have the changes in more general beliefs in religion and science in particular influenced the perception of ghosts Drawing on primary sources from all periods and cultures Finucane addresses this topic in its full breadth R C Finucane Rochester MI is chairperson of the Department of History at Oakland University highly recommended Magonia UK a useful book for those readers interested in the history of the supernatural Extrapolation

A History of Western Astrology Volume II Nicholas Campion, 2009-04-16 Astrology is a major feature of contemporary popular culture Recent research indicates that 99% of adults in the modern west know their birth sign In the modern west astrology thrives as part of our culture despite being a pre Christian pre scientific world view Medieval and Renaissance Europe marked the high water mark for astrology It was a subject of high theological speculation was used to advise kings and popes and to arrange any activity from the beginning of battles to the most auspicious time to have one's hair cut Nicholas Campion examines the foundation of modern astrology in the medieval and Renaissance worlds Spanning the period between the collapse of classical astrology in the fifth century and the rise of popular astrology on the web in the twentieth Campion challenges the historical convention that astrology flourished only between the twelfth and seventeenth centuries Concluding with a discussion of astrology's popularity and appeal in the twenty first century Campion asks whether it should be seen as an integral part of modernity or as an element of the post modern world

The Astrology Book James R Lewis, 2003-03-01 The most complete and affordable single volume reference on Astrology available anywhere This massive 928 page tome is the definitive work on celestial forces and the influence of the stars and other heavenly bodies on human personality behavior and fate *The Astrology Book* *The Encyclopedia of Heavenly Influences* defines and explains more than 800 astrological terms and concepts from air signs to Zeus and everything in between Students of the sun and stars and the laypeople interested in knowing more about those passionate Scorpios or intuitive Pisceans can examine the total astrology culture famous astrologers heavenly bodies explanations and interpretations of every planet in every house

and sign even pesky technical terms And to further them on their star quest The Astrology Book includes a special section on casting a chart It also includes a table of astrological glyphs and abbreviations a helpful bibliography an index and a list of organizations books periodicals and websites dedicated to the study of the influences reigning from the heavens The wealth of information it contains makes it is one of the most useful guides to astrology available today *Legitimacy of Unbelief* Gerd H. Hövelmann, Hans Michels, 2017 Dutch journalist Piet Hein Hoebens 1948 1984 held a unique position in the controversies between proponents and skeptics of parapsychology and related fields While he described himself as a card carrying skeptic with strong ecumenical leanings even many of his nominal opponents appreciated his work and his penetrating open minded criticism Hoebens constructive influence on the culture of responsible scientific exchange is felt to this day The editors have collected and mostly translated more than 40 of Hoebens most significant writings about half of which were never published in English before The editors also added editorial introductions to all chapters to elucidate their original contexts and their lasting relevance Therefore the book is more than a commemoration of an important author it provides valuable insights into the history of parapsychology and its skeptical reflections Back cover *UNDERSTANDING SANATAN DHARMA* N.K. TAWAKLEY, 2018-08-21 HOW ACHIEVING VERY HIGH LEVELS OF HUMAN INTELLIGENCE IS POSSIBLE AND HOW THIS CAN BE ACHIEVED Has science grown to the level that it can control Nature Or is Nature all powerful Are horoscopes to be believed in Do Gods exist in the present times and control the world Are soul and reincarnation just concepts or reality How do sins committed by us corrupt our intelligence How are all the concepts in Sanatan Dharma inter related What is the scientific basis of concepts in Sanatan Dharma Find answers to all these questions Also learn how an average person can improve his intelligence and wisdom by following certain basic concepts and practices in Hindu Religion A step by step guide to expand your wisdom and attain highest levels of intelligence *Mystery of the White Lions* Linda Tucker, 2010-06-01 The inspiring firsthand account of one woman s journey into African shamanism and the mysteries of the most sacred animal on the continent the legendary White Lion In 1991 Linda Tucker was rescued from a pride of lions in the Timbavati game region by a medicine woman known as the Lion Queen So began Linda s lifelong journey into the wisdom and ceremonies of Old Africa in which humans and lions are able to cross the species barrier Such knowledge is in accordance with the most guarded secrets of Ancient Egypt and humankind s greatest riddle the Sphinx Scientists in our day have established that humankind s most significant evolutionary leap occurred as a result of our ancestors interaction with great cats The White Lion is a genetic rarity within Panthera leo and occurred in just one region on Earth Timbavati Today White Lions form the center of the notorious canned trophy hunting industry hand reared captive lions shot in enclosures for gross sums of money By contrast shamans believe that killing a lion sun god is the ultimate sacrilege How the human species treats such precious symbols of God in nature may determine how nature treats the human species Whether we view them as prophetic Lions of God or simply as rare genetic mutations the story of the White Lions is a

true legend unfolding in our own extraordinary times Inspiring captivating and thoroughly researched *Mystery of the White Lions* is an unforgettable portrait of these magnificent beasts and of the overwhelming love that has driven Linda s every action to save them Through understanding the White Lion we will understand ourselves and our great role in the chain of being Deepak Chopra *Astrology and Popular Religion in the Modern West* Nicholas Campion,2016-04-15 This book explores an area of contemporary religion spirituality and popular culture which has not so far been investigated in depth the phenomenon of astrology in the modern west Locating modern astrology historically and sociologically in its religious New Age and millenarian contexts Nicholas Campion considers astrology s relation to modernity and draws on extensive fieldwork and interviews with leading modern astrologers to present an invaluable contribution to our understanding of the origins and nature of New Age ideology This book challenges the notion that astrology is either marginal or a feature of postmodernism Concluding that astrology is more popular than the usual figures suggest Campion argues that modern astrology is largely shaped by New Age thought influenced by the European Millenarian tradition that it can be seen as an heir to classical Gnosticism and is part of the vernacular religion of the modern west *Cosmos and Psyche* Richard Tarnas,2006-01-19 A groundbreaking book that explores how astrology can inform our understanding of the events that have shaped our world the inspiration for the docuseries *Changing of the Gods* In these pages distinguished philosopher and cultural historian Richard Tarnas traces the connection between cosmic cycles and archetypal patterns of human experience Based on thirty years of meticulous research and on thinkers from Plato to Jung *Cosmos and Psyche* explores the planetary correlations of epochal events like the French Revolution the two world wars and September 11 This brilliant book points to a radical change in our understanding of the cosmos shining new light on the drama of history and on our own critical age It opens up a new cosmic horizon that reunites science and religion intellect and soul modern reason and ancient wisdom Whether read as astrology updated for the quantum age or as a contemporary classic of spirituality *Cosmos and Psyche* is a work of immense sophistication deep learning and lasting importance **Journal of Scientific Exploration** ,1997 The official research journal of the Society for Scientific Exploration Provides a professional forum for presentation scrutiny and criticism of scientific research on topics outside the established disciplines of mainstream science A critical forum of rationality and observational evidence for the often strange claims at the fringes of science *The Nature of Astrology* Bruce Scofield,2023-01-03 An in depth examination of how astrology is a form of systems science Shares modern biological studies offering evidence that our solar system neighbors profoundly affect and shape life on our planet Explores the early practice of astrometeorology revealing the links between the solar system weather and climate over large spans of time Looks at the history philosophy and methodologies of astrology as well as its potential future applications in medicine and the social sciences Our ancient ancestors recorded the rhythms of the Sun Moon planets and stars correlating these rhythms with weather plant growth and animal and human behaviors From these early geocosmic recordings were born calendars

astronomy and astrology While astrology is now mostly viewed as subjective fortune telling Bruce Scofield argues that astrology is not only a practice but also a science specifically a form of systems science a set of techniques for mapping and analyzing self organizing systems Providing clear evidence that our solar system neighbors profoundly affect and shape life on our planet Scofield shares modern biological and climatological studies on the effects of Earth s rotation the Sun the Moon and the rhythms of light gravity magnetism and solar radiation on terrestrial processes He explores the early practice of astrometeorology a method of weather forecasting used from ancient times into the Renaissance revealing the links between the solar system weather and climate over large spans of time He shares his own studies on the correlations between Saturn s position and terrestrial weather as well as presenting a wealth of evidence on astrological effects and the theories and mechanics behind them Examining the history of astrology he looks at its earliest foundations in Mesopotamia and its development by the classical Greeks into a mathematically informed body of knowledge He explores the decline and marginalization of astrology during the Scientific Revolution of the Renaissance and the Enlightenment when astrology was transformed from a credible science to a controversial practice after being attacked by the Church and then abandoned by experimental scientists Presenting a broad look at how the cosmic environment shapes nature the author shows how the practice and natural science of astrology can expand its applications in modern society in such varied fields as medicine history and sociology
