**The Tennessee** Donald Davidson,1991-11-15 From the landing of Federal troops at the Tennessee Ohio confluence to the new river of the TVA whose dams stand athwart the valley in Egyptian impassivity this volume completes the story of the transformation of a river and of the culture it nourished Southern Classics Series **The Tennessee** Donald Davidson,1946

The Tennessee ,1946 The Tennessee Donald Davidson,1946 **The Tennessee, Volume I, the Old River, Frontier to Secession** Donald Davidson,1946 **Where No Flag Flies** Mark Royden Winchell,2000 The First American Frontier Wilma A. Dunaway,2000-11-09 In The First American Frontier Wilma Dunaway challenges many assumptions about the development of preindustrial Southern Appalachia s society and economy Drawing on data from 215 counties in nine states from 1700 to 1860 she argues that capitalist exchange and production came to the region much earlier than has been previously thought Her innovative book is the first regional history of antebellum Southern Appalachia and the first study to apply world systems theory to the development of the American frontier Dunaway demonstrates that Europeans established significant trade relations with Native Americans in the southern mountains and thereby incorporated the region into the world economy as early as the seventeenth century In addition to the much studied fur trade she explores various other forces of change including government policy absentee speculation in the region s natural resources the emergence of towns and the influence of local elites Contrary to the myth of a homogeneous society composed mainly of subsistence homesteaders Dunaway finds that many Appalachian landowners generated market surpluses by exploiting a large landless labor force including slaves In delineating these complexities of economy and labor in the region Dunaway provides a perceptive critique of Appalachian exceptionalism and development **Hallam's War** Elisabeth Payne Rosen,2009-08-04 An acclaimed sweeping historical novel set during the Civil War with one steadfast couple at its core It is 1859 and Hugh and Serena Hallam have left Charleston society behind to build a new life for themselves and their three children in the near wilderness of West Tennessee War may loom on the horizon but life at their farm Palmyra is good both for their family and so they convince themselves their slaves Young and idealistic torn between their ambivalence toward slavery and their love of the land they keep hope that goodwill might yet prevail against the growing hostility dividing the two Americas But soon events will move the Hallams entire world toward destruction sweeping Hugh into battle while stranding Serena at a besieged Palmyra Their values will be tested on the battlefield and at home and in the end only their passionate and enduring love for one another will sustain them as they face the war that transforms a nation *The Fourth Ghost* Robert H. Brinkmeyer,2009 In the 1949 classic *Killers of the Dream* Lillian Smith described three racial ghosts haunting the mind of the white South the black woman with whom the white man often had sexual relations the rejected child from a mixed race coupling and the black mammy whom the white southern child first loves but then must reject In this groundbreaking work Robert H Brinkmeyer Jr extends Smith s work by adding a fourth ghost lurking in the psyche of the

white South the specter of European Fascism He explores how southern writers of the 1930s and 1940s responded to Fascism and most tellingly to the suggestion that the racial politics of Nazi Germany had a special problematic relevance to the South and its segregated social system As Brinkmeyer shows nearly all white southern writers in these decades felt impelled to deal with this specter and with the implications for southern identity of the issues raised by Nazism and Fascism Their responses varied widely ranging from repression and denial to the repulsion of self recognition With penetrating insight Brinkmeyer examines the work of writers who contemplated the connection between the authoritarianism and racial politics of Nazi Germany and southern culture He shows how white southern writers both those writing cultural criticism and those writing imaginative literature turned to Fascist Europe for images analogies and metaphors for representing and understanding the conflict between traditional and modern cultures that they were witnessing in Dixie Brinkmeyer considers the works of a wide range of authors of varying political stripes the Nashville Agrarians W J Cash Lillian Smith William Alexander Percy Thomas Wolfe William Faulkner Katherine Anne Porter Carson McCullers Robert Penn Warren and Lillian Hellman He argues persuasively that by engaging in their works the vital contemporary debates about totalitarianism and democracy these writers reconfigured their understanding not only of the South but also of themselves as southerners and of the nature and significance of their art The magnum opus of a distinguished scholar The Fourth Ghost offers a stunning reassessment of the cultural and political orientation of southern literature by examining a major and heretofore unexplored influence on its development

*Alabama's Frontiers and the Rise of the Old South* Daniel Dupre, 2017-11-30 A well written nicely comprehensive and inclusive social history of Alabama before and immediately after statehood H AmIndian Alabama endured warfare slave trading squatting and speculating on its path to becoming America s twenty second state and Daniel S Dupre brings its captivating frontier history to life in Alabama s Frontiers and the Rise of the Old South Dupre s vivid narrative begins when Hernando de Soto first led hundreds of armed Europeans into the region during the fall of 1540 Although this early invasion was defeated Spain France and England would each vie for control over the area s natural resources struggling to conquer it with the same intensity and ferocity that the Native Americans showed in defending their homeland Although early frontiersmen and Native Americans eventually established an uneasy truce the region spiraled back into war in the nineteenth century as the newly formed American nation demanded more and more land for settlers Dupre captures the riveting saga of the forgotten struggles and savagery in Alabama s and America s frontier days An introduction to the interaction of European powers the United States and Indian tribes in Alabama and the Southeast Western Historical Quarterly

**Tennessee Frontiers** John R. Finger, 2001-11-13 A comprehensive history of the Volunteer State s formation from the prehistoric era to the closing of the frontier in 1840 This chronicle of the formation of Tennessee from indigenous settlements to the closing of the frontier in 1840 begins with an account of the prehistoric frontiers and a millennia long habitation by Native Americans The rest of the book deals with Tennessee s historic period beginning with the incursion of

Hernando de Soto's Spanish army in 1540 John R Finger follows two narratives of the creation and closing of the frontier The first starts with the early interaction of Native Americans and Euro Americans and ends when the latter effectively gained the upper hand The last land cession by the Cherokees and the resulting movement of the tribal majority westward along the Trail of Tears was the final decisive event of this story The second describes the period of Euro American development that lasts until the emergence of a market economy Though from the very first Anglo Americans participated in a worldwide fur and deerskin trade and farmers and town dwellers were linked with markets in distant cities during this period most farmers moved beyond subsistence production and became dependent on regional national or international markets Two major themes emerge from Tennessee Frontiers first that of opportunity the belief held by frontier people that North America offered unique opportunities for advancement and second that of tension between local autonomy and central authority which was marked by the resistance of frontier people to outside controls and between and among groups of whites and Indians Distinctions of class and gender separated frontier elites from lesser whites and the struggle for control divided the elites themselves Similarly native society was riddled by factional disputes over the proper course of action regarding relations with other tribes or with whites Though the Indians lost in fundamental ways they proved resilient adopting a variety of strategies that delayed those losses and enabled them to retain in modified form their own identity Along the way the author introduces the famous personalities of Tennessee's frontier history Attakullakulla Nancy Ward Daniel Boone John Sevier Davy Crockett Andrew Jackson and John Ross among others They remind us that this is the story of real people who dealt with real problems and possibilities in often difficult circumstances Finger draws on his rich research into the Southern frontier to illuminate not only Tennessee's three physiographic zones but also their spheres of interaction The author skillfully summarizes and illustrates the complexity of Tennessee's frontier history addressing issues of leadership Jackson versus all rivals land speculation ever dominant and Indian affairs where he is at his best Like the late Stanley Folmsbee Finger knows the three Tennessees linguistically geographically politically socially and economically fortunately for the reader he has constructed a well balanced account of them all Maps charts illustrations and 48 pages of sources enhance the volume's usefulness for collections on the American frontier All levels and collections J H O Donnell III Samuel Doak Earle W. Crawford, 1999 Originally published by the Pioneer Printers of Washington College Academy as one of the school's bicentennial projects this book follows the previously printed Doak series which included Samuel Doak 1749 1830 by William Gunn Calhoun and Samuel Doak A Tennessee Pioneer by Marion Horton The Rebuke of History Paul V. Murphy, 2003-01-14 In 1930 a group of southern intellectuals led by John Crowe Ransom Allen Tate Donald Davidson and Robert Penn Warren published I'll Take My Stand The South and the Agrarian Tradition A stark attack on industrial capitalism and a defiant celebration of southern culture the book has raised the hackles of critics and provoked passionate defenses from southern loyalists ever since As Paul Murphy shows its effects on the evolution of American conservatism have

been enduring as well Tracing the Agrarian tradition from its origins in the 1920s through the present day Murphy shows how what began as a radical conservative movement eventually became alternately a critique of twentieth century American liberalism a defense of the Western tradition and Christian humanism and a form of southern traditionalism which could include a defense of racial segregation Although Agrarianism failed as a practical reform movement its intellectual influence was wide ranging Murphy says This influence expanded as Ransom Tate and Warren gained reputations as leaders of the New Criticism More notably such neo Agrarians as Richard M Weaver and M E Bradford transformed Agrarianism into a form of social and moral traditionalism that has had a significant impact on the emerging conservative movement since World War II

**A Land Imperiled** John Nolt, 2005 Cherokees called the magnificent mountain range in eastern Tennessee land of the blue mist which European settlers later changed to Smoky Mountains Today the Great Smoky Mountains National Park is one of Southern Appalachia s leading tourist attractions But that fabled blue mist isn t so blue or healthy any longer Particularly in the summer months the smoke of the Smokies is a haze of sulfate particles and other pollutants released by coal burning power plants a mixture more likely to create dangerous ozone levels for visiting tourists than the invigorating mountain air so many come to seek It is a story common throughout Southern Appalachia one of America s most beautiful biologically diverse and fragile bioregions A Land Imperiled is a symptom by symptom look at the myriad of ecological issues threatening the health of the southern high country Sections on air water plants and animals food energy waste transportation and population and urbanization make this the most comprehensive environmental study of Southern Appalachia to date a much needed wake up call for anyone concerned about the region s natural legacy But it is not just the future we have to worry about the author asserts pollution development and other forms of degradation are already affecting our quality of life The excessively high ozone levels plaguing the Smokies have been connected to a host of respiratory problems including chronic bronchitis and asthma Once crystal streams are green and sluggish with runoff from agricultural wastes Over half of the South s natural forests are gone and a mere 2 percent of the remaining forests have protected status The environment of Southern Appalachia is a collection of complex interrelated systems that needs care and protection to function in full health A Land Imperiled not only illustrates the many ways in which the health of this bioregion is being affected but also provides examples of how the damage can be reversed to sustain ourselves and this natural treasure

The Era of the Civil War--1820-1876 Louise A. Arnold-Friend, US Army Military History Institute, 1982      Special Bibliography , 1982      **Glory, Passion, and Principle** Melissa Lukeman Bohrer, 2007-11-01 Much has been written of the brave deeds acts of heroism and intellectual prowess of the men who drafted the Declaration of Independence over two hundred years ago yet almost no attention has been paid to the extraordinary women of that time women who helped found our nation with courage sacrifice and intellect equal to any of the famed male politicians of 1776 Glory Passion and Principle tells the story of eight incredible women each deprived of formal education world travel or equal status and yet all managed

to flourish against incredible odds Whether advising such men as John Adams Thomas Jefferson or Benjamin Franklin on political theory publishing poems and plays that would rouse a nation to independent furor helping negotiate treaties acting as spies or fighting alongside men in the military these women broke the limiting definitions imposed upon them much as America was doing for itself and helped form and found the country that is America today Each chapter is dedicated to a different woman starting with Abigail Adams political confidante and wife of John Adams Using her intellect to influence her husband s position in the Continental Congress she earned the distinction of being the only person to put Thomas Jefferson in his place Nancy Ward the brave and diplomatic leader of the Cherokee tribe matured from a young widow to bold warrior risking her life and those of her people when she warned the Patriots of imminent attack by Native American tribes She became a strong voice when the Treaty of Hopewell was signed in 1785 Yet another bright light was Sybil Ludington a seventeen year old who took it upon herself to alert her town s militia that the British were coming and survived a ride twice as long as Paul Revere s And where Revere got caught Ludington did not Alongside Ludington Adams and Ward the five other chapters chronicle the lives of Deborah Sampson Lydia Darragh Mercy Otis Warren Phillis Wheatley and Molly Hays Filled with unimaginable heartbreak personal sacrifice and cunning survival skills Glory Passion and Principle is an inspiring testament to the women who undoubtedly made a considerable dent in our great nation s history

Minister to the Cherokees James Anderson Slover,2001-01-01 In 1857 James Anderson Slover rode into Indian Territory as the first Southern Baptist missionary to the Cherokee Nation As the Civil War began to divide the Cherokees along with the rest of the nation Slover was caught up in one of the most intense dramas of his century As a farmer teacher preacher and evangelist observer of the Mexican War and the Civil War contemporary commentator on slavery and California pioneer Slover played a small role in changing the face of the nation It was in 1907 a year after he helped build shelters for people left homeless by the great San Francisco earthquake that he began composing a record of his eventful life The resulting book is a wonderful gift to any reader curious about the life and culture of nineteenth century America Slover tells of flatboating down rivers from Tennessee to Arkansas skedaddling from the Union army in Indian Territory and working his way up the West Coast to Oregon preaching the gospel as he went and carving a new life for himself and his family time after time His autobiography encompassing eighty three years of his life and spanning most of a century gives us a vivid picture of a lost world and of how it was experienced by an ordinary man in extraordinary times

*Mastering Discourse* Paul A. Bové,1992 Mastering Discourse gathers and elaborates more than a decade of thought on the problems of the intellectual in contemporary society by one of the most distinguished critics writing on these issues today From Derrida and Foucault to Kristeva and Irigaray Paul A Bov looks at the practices of literary and cultural theory and discusses the way theorists have produced their institutional positions and politics Examining some of the major theories developed out of and in relation to the problems of discourse Bov analyzes the limited successes and failures of these efforts Mastering Discourses offers an account of why

theory fails to deal adequately with the politics of discursive cultures and warns that unless critics take much more seriously their own disciplinary inscriptions they will always reproduce structures of power and knowledge that they claim to oppose. Moreover, Bov argues they will not fulfill the main role of the post enlightenment intellectual namely to respond effectively to the present through new theoretical and historical formulations that address the changing world of transnational capitalism and its neoliberal ideologies.

*A Disturbing and Alien Memory* Douglas L. Mitchell, 2008-12

In the late nineteenth century as the study of history shifted from the domain of letters into the social sciences, novelists in the North and the West generally turned away from writing history. Many southern novelists and poets, however, continued to undertake historical writing as an extension of their art form. What made southern literary figures differ from their northern and western counterparts? In *A Disturbing and Alien Memory*, Douglas L. Mitchell addresses this intriguing question by tracing a line of southern writers from the early nineteenth century to the mid twentieth, finding that an obsessive need to defend the South and the oft noted rage to explain drove some creative writers to continue to make forays into history and biography in an effort to enter a more public sphere where they could more decisively influence interpretations of the past.

In the Romantic history of the nineteenth century, Mitchell explains, men of letters saw themselves as keepers of memory whose renderings of the past could help shape the future of the nation. He explores the historical writing of William Gilmore Simms to trace the failure of Romantic nationalism in the growing split between North and South, then turns to Thomas Nelson Page's effort to resurrect the South as a spiritual nation with a redeemed history after the Civil War. Mitchell juxtaposes their work with that of William Wells Brown, the pioneering African American historian and novelist who used the authority of history to write blacks into the American story.

Moving into the twentieth century, Mitchell analyzes the historical component of the Southern Agrarian project, focusing on the tension between modernist aesthetics and polemical aims in Allen Tate's Civil War biographies. He then traces a path toward a viable historical vision in Robert Penn Warren's recovery of a tragic understanding and the creation of a compelling historical art in the work of Shelby Foote.

Throughout, Mitchell examines the peculiar dilemma of southern writers, the changing nature of history and its relation to the realm of letters, and the question of public authority, shedding light on several neglected texts in the process, including Simms's *The Sack and Destruction of Columbia*, S. C. Brown's *The Negro in the American Rebellion*, Tate's *Jefferson Davis*, and Warren's *John Brown*. Offering a new perspective on a perennial debate in southern letters, *A Disturbing and Alien Memory* provides a critical framework for a neglected genre in the southern literary canon.
