Gutiérrez, 2021-10-21 Ya hace tiempo que las redes sociales han dejado de ser nuevos medios para pasar a formar parte del arsenal comunicativo habitual de todo tipo de instituciones públicas y privadas. Es por ello que hemos evitado emplear el término nuevo en el título de este libro el cual se presenta no como una ilustración de innovaciones tecnológicas y su aplicación a la comunicación sino más bien como una panorámica sobre la realidad presente de la comunicación de naturaleza política e ideológica. Por otro lado y dada la importancia que tienen en la actualidad Internet y las redes sociales a la hora de vehicular los intereses de los poderosos y también de los contrapoderes sociales era esperable que el factor de lo digital ocupase un lugar central en el libro.

Televisión y Estado en Colombia 1954-2014. Cuatro momentos de intervención del Estado Juan Carlos Garzón Barreto, 2015-05-27 Al haberse cumplido 60 años de la inauguración de la televisión en Colombia el presente libro soportado en abundantes fuentes primarias y secundarias examina el proceso de construcción de las relaciones entre televisión y Estado y las diversas intenciones de democratización del servicio. En tal sentido se busca develar los argumentos las tensiones las expectativas las ansiedades los mandatos oficiales las tareas pendientes y los ocasionales consensos suscitados entre los diversos agentes sociales públicos y privados con intereses e intereses en la televisión. Se proponen cuatro momentos históricos concretos de intervención del Estado en el servicio a saber decretar legislar constitucionalizar y regubernamentalizar televisión.

Comunicación política y democracia en América Latina Juan Pablo Arancibia Carrizo, Claudio Muñoz Salinas, 2016-04-26 Este libro en primer término busca asediar y confrontar aquel conjunto de condiciones relaciones agentes dispositivos y operaciones que participan en la configuración del orden material y simbólico actual. En segundo término la obra realiza una interpretación crítica desde una perspectiva contextual e histórica a los modos que asume el campo de la comunicación. Se trata de someter a tensión un conjunto de matrices tradiciones formatos y corrientes de pensamiento que han asentado la relación de correspondencia entre la comunicación y la configuración simbólica del presente. Interrogar sus matrices categoriales sus epistemes y presupuestos y sobre todo el carácter funcional administrativo de su ejercicio. El conjunto de trabajos intenta no solo diagnosticar unas condiciones de trabajo intelectual sino proponer y hacer visibles sus consecuencias tanto para el propio campo de la comunicación política en Iberoamérica como para el tipo de investigación que sacraliza sus aparentes virtudes pensando que los tiempos de la burocracia estatal y privada son equivalentes e idénticos para el hacer académico. Con arreglo a lo anterior se busca ensayar un conjunto de enunciados fundamentalmente en tono de interrogantes orientados a plantear problemas y abrir discusiones sugerir otras preguntas y nuevas sospechas. No nos olvidemos que estamos en un territorio ciertamente conflictivo que intenta proponer nuevas relaciones pero que a la vez está constreído por presiones institucionales cada vez más acuciantes.
