Taking some major exhibitions that were on show in the UK during the 21st century as a representative case study, the book reveals the mechanisms by which these exhibitions were developed and shared overseas. Questioning who really shapes the image of China, Kong challenges Western assumptions and looks ahead to consider whether moving forward the Chinese government and museums could work together in a mutually beneficial way. *Museums International Exhibitions and China's Cultural Diplomacy* contributes to the growing literature on museums and diplomacy. As such, it will be of interest to academics and students engaged in the study of museums and heritage, international relations, culture politics, China and wider Asia.
