Make It a Green Peace! Frank Zelko, 2013-05-30

The emergence of Greenpeace in the late 1960s from a loose knit group of anti nuclear and anti whaling activists

fundamentally changed the nature of environmentalism its purpose philosophy and tactics around the world And yet there

has been no comprehensive objective history of Greenpeace's origins until now. *Make It a Green Peace* draws upon meeting minutes, internal correspondence, manifestos, philosophical writings, and interviews with former members to offer the first full account of the origins of what has become the most recognizable environmental non-governmental organization in the world. Situating Greenpeace within the peace movement and counterculture of the 1960s, Frank Zelko provides a much deeper treatment of the group's groundbreaking brand of radical media-savvy direct action environmentalism than has been previously attempted. Zelko traces the complex intellectual and cultural roots of Greenpeace to the various protest movements of the 1950s and 1960s, highlighting the influence of Quakerism with its practice of bearing witness, Native American spirituality, and the non-violent resistance of Gandhi. Unlike the more strait-laced, less confrontational Sierra Club and Audubon Society, early Greenpeaceers smoked dope, dropped acid, wore their hair long, and put their bodies on the line, interposing themselves between the harpoons of whalers and the clubs of seal hunters to save the animals and achieve what they hoped would be a lasting transformation in the way humans regarded the natural world. And while it may not have achieved its most revolutionary goals, Greenpeace inarguably created a heightened awareness of environmental issues that endures to this day. Narrating the key campaigns and arguments among the group's early members, *Make It a Green Peace* vividly captures all the drama, pathos, and occasional moments of absurd comic relief of Greenpeace's tumultuous first decade.

An Historical and Statistical Account of New South Wales, Etc. John Dunmore Lang, 1834 *Go East, Young Man* Richard Francaviglia, 2011-12-14

Transference of orientalist images and identities to the American landscape and its inhabitants, especially in the West, in other words, portrayal of the West as the Orient, has been a common aspect of American cultural history. Place names such as the Jordan River or Pyramid Lake offer notable examples, but the imagery and its varied meanings are more widespread and significant. Understanding that range and significance, especially to the western part of the continent, means coming to terms with the complicated, nuanced ideas of the Orient and of the North American continent that European Americans brought to the West. Such complexity is what historical geographer Richard Francaviglia unravels in this book. Since the publication of Edward Said's book *Orientalism*, the term has come to signify something one dimensionally negative. In essence, the orientalist vision was an ethnocentric characterization of the peoples of Asia and Africa and the Near East as exotic, primitive others, subject to conquest by the nations of Europe. That now well-established point, which expresses a postcolonial perspective, is critical, but Francaviglia suggests that it overlooks much variation and complexity in the views of historical actors and writers, many of whom thought of western places in terms of an idealized and romanticized Orient. It likewise neglects positive images and interpretations to focus on those of a decadent and ostensibly inferior East. We cannot understand well or fully what the pervasive orientalism found in western cultural history meant, says Francaviglia, if we focus only on its role as an intellectual engine for European imperialism. It did play that role as well in the American West. One only need think about characterizations of American Indians as Bedouins of the Plains, destined for

displacement by a settled frontier Other roles for orientalism though from romantic to commercial ones were also widely in play In *Go East Young Man* Francaviglia explores a broad range of orientalist images deployed in the context of European settlement of the American West and he unfolds their multiple significances

Laws and Societies in the Canadian Prairie West, 1670-1940 Louis A.
