The Beatles The First Us Visit:

The BEATLES, 1990 THE BEATLES FIRST TOUR OF THE U S *Albert Maysles* Joe McElhaney, 2010-10-01 Albert Maysles has created some of the most influential documentaries of the postwar period Such films as *Salesman Gimme Shelter* and *Grey Gardens* continue to generate intense debate about the ethics and aesthetics of the documentary form In this in depth study Joe McElhaney offers a novel understanding of the historical relevance of Maysles By closely focusing on Maysles s expressive use of his camera particularly in relation to the filming of the human figure this book situates Maysles s films within not only documentary film history but film history in general arguing for their broad ranging importance to both narrative film and documentary cinema Complete with an engaging interview with Maysles and a detailed comparison of the variant releases of his documentary on the Beatles *What s Happening The Beatles in the U S A* and *The Beatles The First U S Visit* this work is a pivotal study of a significant filmmaker *The Beatles Diary Volume 2: After The Break-Up 1970-2001* Keith Badman, 2009-10-28 From 1970 onwards the disbanded Beatles were at last free to follow their individual interests From that point on there were four separate stories but they were stories that would form a complex overlapping history of quarrels and reconciliations personal projects and sporadic collaborations For the first time ever a noted Beatles expert has meticulously documented the entire period of The Beatles after the break up "We're Going to See the Beatles!" Garry Berman, 2008-04-01 *We re Going to See the Beatles* presents the story of Beatlemania in America as experienced by their most devoted fans *We re Going to See the Beatles* includes anecdotes from those who cheered the group as they arrived at Kennedy Airport in 1964 who kept vigil for them outside the Plaza Hotel and who sat in the studio audience of *The Ed Sullivan Show* for the band s landmark first live TV broadcast Other fans detail what it was like to see the Beatles in one of their rare concerts at such famous venues as Shea Stadium and Candlestick Park From the earliest whispers about the band to the Beatles appearance on *The Ed Sullivan Show* and from their subsequent tours and albums to their breakup author Garry Berman has collected stories from the fans who witnessed the hysteria firsthand Contributors from around the United States also share photographs and mementos to help create a richly detailed and entertaining oral history What emerges is a highly personal account of the Beatles and their incredible impact on music and popular culture **Dead Celebrities, Living Icons** John David Ebert, 2010-06-02 This in depth series of literary portraits studies celebrities who died in famous and tragic ways ways that still resonate as archetypal death scenarios in present day We know their likes and dislikes admire their talents envy them for daring to be what we can t or what we won t When they are snatched from us we feel a personal loss and an unwillingness to let go And so we transform these mere human beings into icons whose stars often shine in death even more brilliantly than in life *Dead Celebrities Living Icons Tragedy and Fame in the Age of the Multimedia Superstar* explores this phenomenon through a series of essays on 14 men and women who are arguably the most famous people of the 20th and early 21st centuries The book covers the epoch of the celebrity beginning in the 1930s with Howard Hughes and

Walt Disney and continues to the present day with the life and death of Michael Jackson Far more than just a collection of biographies Dead Celebrities Living Icons documents the philosophical importance and significance of the contemporary cult of the celebrity and analyzes the tragic consequences of a human life lived in the glare of the media spotlight **A Hard Day's Night - Music on Film Series** Ray Morton,2011-08-01 Limelight A Hard Day's Night Music on Film Series is the story of the making of the greatest rock and roll movie of all time Beginning with introductions to the film's stars chronicling their rise from a raggedy teenage skiffle band to the biggest pop act in the world the book goes on to tell how the American film company United Artists wanted to make a quick low budget movie starring the Fab Four so its record division could put out a motion picture soundtrack album full of new Beatles songs in order to allow the studio to cash in on the incredible wave of Beatlemania then sweeping the planet Director Richard Lester producer Walter Shenson and screenwriter Alun Owen were hired to churn out just another cheap exploitation film but instead used the opportunity to create a startlingly fresh and original movie that broke new ground both in subject matter instead of simply following genre tradition and sticking the band in some corny made up plot they had the Beatles play themselves in a narrative based on their own incredible real life experiences and in form Lester's inspired surrealist approach to the film's musical numbers kicked off the entire music video revolution Covered is the film's frantic six week shoot the lively recording sessions that resulted in seven great new Beatles songs and how both the film and the album met with great critical and popular success **John & Paul** Ian
