The Beauty Of Environment A General Model For Environmental Aesthetics:

The Beauty of Environment Yrjö Sepänmaa, 1993 **The Aesthetics of Natural Environments** Allen Carlson, Arnold Berleant, 2004-02-10

The Aesthetics of Natural Environments is a collection of essays investigating philosophical and aesthetics issues that arise in our appreciation of natural environments. The introduction gives an historical and conceptual overview of the rapidly developing field of study known as environmental aesthetics. The essays consist of classic pieces as well as new contributions by some of the most prominent individuals now working in the field and range from theoretical to applied approaches. The topics covered include the nature and value of natural beauty, the relationship between art appreciation and nature appreciation, the role of knowledge in the aesthetic appreciation of nature, the importance of environmental participation to the appreciation of environments, and the connections between the aesthetic appreciation of nature and our ethical obligations concerning its maintenance and preservation. This volume is for scholars and students focussed on nature landscapes and environments, individuals in areas such as aesthetics, environmental ethics, geography, environmental studies, landscape architecture, landscape ecology, and the planning and design disciplines. It is also for any reader interested in and concerned about the aesthetic quality of the world in which we live.

The Beauty of Environment, 1985 **Aesthetics of the Natural Environment** Emily Brady, 2019-06-01

In the first systematic account of aesthetics in relation to the natural environment, Emily Brady provides critical understanding of what aesthetic appreciation of nature involves and develops her own distinctive aesthetic theory. In particular, she develops a theory of aesthetic appreciation which integrates subjective and objective approaches. Among the topics discussed which bring together philosophical aesthetics and environmental philosophy are: The nature of aesthetic experience, Aesthetic value, Theories of aesthetic appreciation of nature, Art and environment, Imagination, emotion and meaning in aesthetic appreciation of nature, The justification of aesthetic judgements of nature, The intersection between aesthetic and ethical value, The role of aesthetics in nature conservation and environmental policy. In providing a thorough account of the literature together with original critical insights, this book will be of interest to undergraduates, postgraduates and academics in environmental philosophy and aesthetics, as well as those in geography, landscape architecture, art theory and sociology. Features: Offers a new approach to the subject; Provides a solid grounding in environmental aesthetics; Connects with ecological issues, conservation and environmental planning.

Chinese Environmental Aesthetics Gerald Cipriani, 2015-05-15

China is currently afflicted by enormous environmental problems. This book, drawing on ancient and modern Chinese environmental thinking, considers what it is that makes an environment a desirable place for living. The book emphasises ideas of beauty and discusses how these ideas can be applied in natural, agricultural and urban environments in order to produce desirable environments. The book argues that environment is both a product of nature and of human beings and as such is potentially alterable by culture. The book explores the three aspects of environmental beauty whereby such alteration might be beneficially made, integrated and

holistic ecological and man made and authentic and everyday This book addresses environmental issues by distinctively suggesting that an aesthetic approach inspired from ancient Chinese tradition could help us overcome the many problems that human beings have created at local and global levels Although its main focus is the traditional and current contexts of the People s Republic of China the book transcends national borders A typical example is the ancient Chinese thought system and cultural practice of Feng Shui that sought to negotiate how the natural environment and human constructions can cohabit without destructing each other The author evokes that sought after harmony through the powerful image of gardens of life whose environmental beauty can be found in traditional Chinese gardens and palaces as well as historically and culturally preserved cities

The Social Aesthetics of Human Environments Arnold Berleant,2023-08-24 Across these essays Arnold Berleant demonstrates how aesthetic values and theory can be used to reappraise our social practices He tackles issues within the built environment everyday life and politics breaking down the dichotomy between the natural and the human His work represents a fresh approach to traditional philosophical questions in not only ethics but in metaphysics truth meaning psychology phenomenology and social and moral philosophy Topics covered include the cultural aesthetics of environment ecological aesthetics the aesthetics of terrorism and the subversion of beauty The corruption of taste by the forces of commercial interests as well as how aesthetics can advance our understanding of violence are also considered Berleant s exploration is supported by his analysis of 19th century art to the present day starting with impressionism through to postmodernism and contemporary artistic interventions By critically examining the field in this way and casting new light on social understanding and practice this collection makes a substantive contribution in identifying and clarifying central human issues guided by an understanding of aesthetic engagement as a powerful tool for social critique

The Aesthetics Of Human Environments Arnold Berleant,Allen Carlson,2007-05-24 The Aesthetics of Human Environments is a companion volume to Carlson s and Berleant s The Aesthetics of Natural Environments Whereas the earlier collection focused on the aesthetic appreciation of nature The Aesthetics of Human Environments investigates philosophical and aesthetics issues that arise from our engagement with human environments ranging from rural landscapes to urban cityscapes Our experience of public spaces such as shopping centers theme parks and gardens as well as the impact of our personal living spaces on the routine activities of our everyday life are discussed in terms of their aesthetic value and the nature of our aesthetic appreciation This volume will appeal to any reader concerned about the aesthetic quality of the world in which we live
