The Bermuda Hundred Campaign Begins

On May 4, 1864, Maj. Gen. Benjamin F. Butler began to load 38,000 men of the Army of the James on transport ships at Newport News and Yorktown, Virginia. Their goal was a neck of land in Chesterfield County known as Bermuda Hundred. Butler was to land there, secure a base of operations and sever the rail link between Richmond and Petersburg. If practicable, he would advance on either Richmond or Petersburg. At the same time Lt. Gen. Ulysses S. Grant would move the Army of the Potomac across the Rapidan River and attempt to crush Gen. Robert E. Lee's Army of Northern Virginia.

On May 5th, Butler's troops seized Bermuda Hundred and City Point. After establishing a beachhead, Butler's troops advanced to this point and began to dig a line of defensive earthworks on May 6th. The 18th Corps established a line of works here with its left anchored on the Appomattox River and its right in the vicinity of Ware Bottom Church approximately two miles north of where you are standing. Remnants of these earthworks can be seen just inside the woodline in front of you. The 10th Corps then picked up the line at Ware Bottom Church and extended it north another mile to the James River.

Butler had successfully landed his men to the complete surprise of the Confederates and had established a defensive front. Meanwhile, Confederate commanders were trying to gather their scattered forces to counter this new threat. For a brief period of time the doors to Richmond and Petersburg were wide open.

tramping across battlefields The NYMAS Review **Back Door to Richmond** William Glenn Robertson,1987 Drawing upon hundreds of sources including over sixty unpublished accounts Back Door to Richmond is the first book length study of the Bermuda Hundred Campaign As such it significantly modifies the standard interpretation of the campaign which held that the Federal effort was an abject failure caused almost entirely by the blundering of an incompetent Benjamin Butler who allowed his army to be bottled up by a smaller Confederate force Robertson shows that Butler s operations instead achieved a significant degree of success by gaining an important base disrupting Confederate supply lines for nearly two weeks and distracting 20 000 Confederate troops until late May Butler s inability to achieve more lofty goals must therefore be shared by Grant whose concept of the campaign remained confused throughout and by Butler s principal subordinates whose contentious behavior caused numerous tactical errors In sum Back Door to Richmond provides a new view of an important yet usually neglected or misunderstood Civil War campaign It represents a major reassessment of a crucial event in Benjamin Butler s military career and casts a new light on the generalship of Grant and Beauregard It also provides further evidence fo the technological revolution sweeping nineteenth century military affairs The Bermuda Hundred Campaign Herbert M.
