Bensoussan,J.L. Lions,2006-01-20 INRIA Institut National de Recherche en Informatique et en Automatique Performatism Yasha Grobman,Eran Neuman,2013-01-11 Today with the advent of digital media technologies and the ability to conceptualize express and produce complex forms using digital means the question of the status of the architectural form is once again under consideration Indeed the computer liberated architecture from the tyranny of the right angle and enabled the design and production of non standard

buildings based on irregular geometry Yet the questions concerning the method of form expression in contemporary architecture and its meaning remain very much open Performatism takes up this discussion defines it and presents changes in form conception in architecture followed by their repercussions The book is supported by a wealth of case studies from some of the top firms across the globe and contributed to by some of the top names in this field With a unique and insightful emphasis on professional practice this is essential reading for all architects aspiring and practicing **The Publishers' Trade List Annual** ,1995 **Design Computing and Cognition'20** John S. Gero,2022-02-24 The papers in this volume are from the Ninth International Conference on Design Computing and Cognition DCC 20 held virtually at the Georgia Institute of Technology Atlanta USA They represent the state of the art of research and development in design computing and design cognition including the increasingly active area of design cognitive neuroscience They are of particular interest to design researchers developers and users of advanced computation in designing as well as to design educators This volume contains knowledge about the cognitive behavior of designers which is valuable for those who need to gain a better understanding of designing Domesticating Symbols Ludger Hovestadt,Vera Bühlmann,2014-09-23 domesticating symbols looks at the entropic dissolution of symbolic structures we are experiencing today and explores various approaches towards learning to create code Photovoltaics and its capacity to capture energy by coding instead of exploitation of resources and of integrating in additional or surplus quantities of energy into the ecosphere of the planet s natural balance is the central focus of this publication Energythereby also encompasses the genuinely abstract format of electricity which makes it possible to convert any form of energy into any other form This is the second volume of the Applied Virtuality book series based on the Metalithicum Conferences by the Laboratory of Applied Virtuality at the Chair for Computer Aided Architectural Design Swiss Federal Institute of Technology ETH Zurich Structures and Architecture Paulo J. Cruz,2013-06-27 Although the disciplines of architecture and structural engineering have both experienced their own historical development their interaction has resulted in many fascinating and delightful structures To take this interaction to a higher level there is a need to stimulate the inventive and creative design of architectural structures and to persua
