The Bethlehem Oil Mill 1745-1934:

The Bethlehem Oil Mill, 1745-1934 Carter Litchfield, 1984 **The Bosses Club** Richard A. Gregory, 2011-02-23 The Johnstown Flood is an iconic tragedy in our nation's history like the Chicago Fire the sinking of the Titanic or the San Francisco earthquake Many books have been written about the devastating 1889 Johnstown Flood but few about the period before or after the flood why did the town develop in such a remote valley and why didn't those who lived below the dangerous dam do something about it My book *The Bosses Club* answers those questions but more importantly illuminates often overlooked circumstances that contributed to the origin for the catastrophe like the Pennsylvania Canal and Pennsylvania Railroad How their rapid development set the stage and led to the rivalry between Cambria Iron Company and Carnegie to dominate the burgeoning Steel industry *The Texture of Industry* Robert B. Gordon, Patrick M. Malone, 1997 While historians have given ample attention to stories of entrepreneurship invention and labor conflict they have told us little about actual work places and how people worked Workers seldom wrote about their daily employment However they did leave behind their tools products shops and factories as well as the surrounding industrial landscapes and communities In this book Gordon and Malone look at the industrialization of North America from the perspective of the industrial archaeologist Using material evidence from such varied sites as Indian steatite quarries automobile plants and coal mines they examine manufacturing technology transportation systems and the effects of industrialization on the land Their research greatly expands our understanding of industry and focuses attention on the contributions of anonymous artisans whose skills shaped our industrial heritage **Early Capitalism in Colonial Missions** Christina Petterson, 2023-12-28 Drawing on unpublished archival material this volume compares Moravian economic practice in three different mission settings to demonstrate how Moravian practices evolved during the 18th century as part of a globalizing world and economy Delivering in depth analysis of the far reaching and deep seated effects of missionary activity on indigenous communities and social relations it explores how different economic contexts had an impact on the missionaries relations with Indigenous and slave populations in empire Petterson provides an insight how the missionaries worked lived among various non European peoples and how they organised themselves and their surroundings at a time of changing identities and socio economic change Analysing how missionary practice developed over this period it also demonstrates how the Moravian leadership's priorities and how this affected attitudes to non European peoples on the ground Standing outside of national and imperial boundaries and ambivalent about the political notion of imperialism as well as colonisation itself Moravian missionaries nonetheless functioned in parallel with colonial structures and were part of a broadly culturally colonial mission So even on the outskirts of imperial organisation they were often a crucial part of colonial practice and took part in normalising capitalist relations in many but not all settings as this book demonstrates **Moravian Architecture and Town Planning** William J. Murtagh, 1997-01-29 The industrial city of Bethlehem Pennsylvania was originally settled in colonial times by Moravians from

southeastern Germany These religious utopians were noted for urban planning In this large format richly illustrated volume historian William Murtagh compares more than 20 Bethlehem landmarks with other Moravian communities for a fascinating glimpse into a part of America's past

Flax Americana Joshua MacFadyen, 2018-10-10 Farmers feed cities but starting in the nineteenth century they painted them too Flax from Canada and the northern United States produced fibre for textiles and linseed oil for paint critical commodities in a century when wars were fought over fibre and when increased urbanization demanded expanded paint markets Flax Americana re-examines the changing relationships between farmers urban consumers and the land through a narrative of Canada's first and most important industrial crop Initially a specialty crop grown by Mennonites and other communities on contracts for small town mill complexes flax became big business in the late nineteenth century as multinational linseed oil companies quickly displaced rural mills Flax cultivation spread across the northern plains and prairies particularly along the edges of dryland settlement and then into similar ecosystems in South America's Pampas Joshua MacFadyen's detailed examination of archival records reveals the complexity of a global commodity and its impact on the eastern Great Lakes and northern Great Plains He demonstrates how international networks of scientists businesses and regulators attempted to predict and control the crop's frontier geography how evolving consumer concerns about product quality and safety shaped the market and its regulations and how the nature of each region encouraged some forms of business and limited others The northern flax industry emerged because of border crossing communities By following the plant across countries and over time Flax Americana sheds new light on the ways that commodities frontiers and industrial capitalism shaped the modern world

A Separate Canaan Jon F. Sensbach, 2012-12-01 In colonial North Carolina German speaking settlers from the Moravian Church founded a religious refuge an ideal society they hoped whose blueprint for daily life was the Bible and whose Chief Elder was Christ himself As the community's demand for labor grew the Moravian Brethren bought slaves to help operate their farms shops and industries Moravians believed in the universalism of the gospel and baptized dozens of African Americans who became full members of tightly knit Moravian congregations For decades white and black Brethren worked and worshiped together though white Moravians never abandoned their belief that black slavery was ordained by God Based on German church documents including dozens of rare biographies of black Moravians *A Separate Canaan* is the first full length study of contact between people of German and African descent in early America Exploring the fluidity of race in Revolutionary era America it highlights the struggle of African Americans to secure their fragile place in a culture unwilling to give them full human rights In the early nineteenth century white Moravians forsook their spiritual inclusiveness installing blacks in a separate church Just as white Americans throughout the new republic rejected African American equality the Moravian story illustrates the power of slavery and race to overwhelm other ideals

Early American Technology Judith A. McGaw, 2014-01-01 This collection of original essays documents technology's centrality to the history of early America Unlike much previous scholarship this volume emphasizes

the quotidian rather than the exceptional the farm household seeking to preserve food or acquire tools the surveyor balancing economic and technical considerations while laying out a turnpike the woman of child bearing age employing herbal contraceptives and the neighbors of a polluted urban stream debating issues of property odor and health These cases and others drawn from brewing mining farming and woodworking enable the authors to address recent historiographic concerns including the environmental aspects of technological change and the gendered nature of technical knowledge Brooke Hindle's classic 1966 essay on early American technology is also reprinted and his view of the field is reassessed A bibliographical essay and summary of Hindle's bibliographic findings conclude the volume The contributors are Judith A McGaw Robert C Post Susan E Klepp Michal McMahon Patrick W O Bannon Sarah F McMahon Donald C Jackson Robert B Gordon Carolyn C Cooper and Nina E Lerman

Architecture and Landscape of the Pennsylvania Germans, 1720-1920 Sally McMurry, Nancy Van Dolsen, 2011-03-08 The phrase Pennsylvania German architecture likely conjures images of either the continental three room house with its huge hearth and five plate stoves or the huge Pennsylvania bank barn with its projecting overshoot These and other trademarks of Pennsylvania German architecture have prompted great interest among a wide audience from tourists and genealogists to architectural historians antiquarians and folklorists Since the nineteenth century scholars have engaged in field measurement and drawing photographic documentation and careful observation resulting in a scholarly conversation about Pennsylvania German building traditions What cultural patterns were being expressed in these buildings How did shifting social technological and economic forces shape architectural changes Since those early forays our understanding has moved well beyond the three room house and the forebay barn In **Architecture and Landscape of the Pennsylvania Germans 1720 1920** eight essays by leading scholars and preservation professionals not only describe important architectural sites but also offer original interpretive insights that will help advance understanding of Pennsylvania German culture and history Pennsylvania Germans lives are traced through their houses barns outbuildings commercial buildings churches and landscapes The essays bring to bear years of field observation as well as engagement with current scholarly perspectives on issues such as the nature of ethnicity the social construction of landscape and recent historiography about the Pennsylvania Germans Dozens of original measured drawings appearing here for the first time in print document important works of Pennsylvania German architecture including the iconic Bertolet barns in Berks County the Martin Brandt farm complex in Cumberland County a nineteenth century Pennsylvania German housemill and urban houses in Lancaster

Laying the Hoe Jerrilynn Eby, 2003-01-01 This is the story of iron manufacturing in Stafford County Virginia in the mid 1700 s The CD ROM in pocket gives a vivid illustration of life at a colonial iron works the ledger also provides family researchers with a wealth of genealogical informat
