Who Killed Sir Walter Raleigh? Richard Dale, 2011-07-31 For 400 years the true story behind the fall of Sir Walter Raleigh his conviction for high treason and his eventual beheading has been shrouded in mystery Was he deliberately set up by the brilliant but untrustworthy Sir Robert Cecil Why did his friend Lord Cobham denounce him at his trial And how could this towering figure of the Elizabethan age be accused of conspiring with his old enemy Spain to overthrow the king and his government This book draws on the author's legal background to unravel the extraordinary plots and intrigues that marked the last weeks of Elizabeth's reign and the first months of James's succession In the bitter struggle for position wealth and royal favour only the most ruthless and devious could hope to win and it was the dwarfish hunch backed Cecil who eventually prevailed over the swashbuckling Raleigh But in the eyes of posterity who was the real victor *Selected Writings* Leigh Hunt, 2003 First Published in 2004 Routledge is an imprint of Taylor Francis an informal company English Prose of the Seventeenth Century 1590-1700 Roger Pooley, 2014-06-06 This is the first book length history of the range of seventeenth century English prose writing Roger Pooley's study begins with narrative ranging from the fiction of Bunyan and Aphra Behn to the biographical and autobiographical work of Aubrey and Pepys Further sections consider religious prose from the hugely influential Authorised Version to Donne's sermons the political writing of figures as diverse as Milton Hobbes Locke and Marvell cornucopian texts and the writings of the new scientists from Bacon to Newton At a time when the boundaries of the canon are being increasingly revised this is not only a major survey of a series of great works of literature but also a fascinating social history and a guide to understanding the literature of the period as a whole *Selected Writings* Sir Walter Raleigh, 1986 *The Selected Writings of William Hazlitt Vol 5* Duncan Wu, Tom Paulin, David Bromwich, Stanley Jones, Roy Park, 2020-03-25 William Hazlitt is viewed by many as one of the most distinguished of the non-fiction prose writers to emerge from the Romantic period This nine volume edition collects all his major works in complete form **The Later Tudors** Penry Williams, 1998 The Later Tudors is an authoritative and comprehensive study of England between the accession of Edward VI and the death of Elizabeth I a turbulent period of conflict amongst European nations and between warring Catholics and Protestants These internal and external struggles created anxiety in England but by the end of Elizabeth's reign the nation had achieved a remarkable sense of political and religious identity Penry Williams combines the political religious and economic history of the nation with a broader analysis of English society family relations and culture in order to explain the workings and development of the English state The result is an incisive and wide ranging analysis that culminates in an assessment of England's part in the shaping of the New World It should hold its own for some time the best account for the serious reader History Today **Nationalism and Historical Loss in Renaissance England** Andrew Escobedo, 2004 Andrew Escobedo here seeks to provide a new understanding of the emergence of national consciousness in England showing that many Renaissance writers articulated their Englishness temporally through an engagement with a

history they perceived as lost or alienated According to Escobedo the English experienced nationalism as a form of community that disrupted earlier religious and social identities making it difficult to link the national present to the medieval past Furthermore he argues the English faced the nation's temporal isolation before the Enlightenment narrative of historical progress emerged as a means to interpret novelty in a positive light Escobedo examines how John Foxe John Dee Edmund Spenser and John Milton used narrative representations of nationhood to mediate what they perceived as a troubling breach in history attempting to bring together the English past present and near future in a complete and continuous story Yet all four authors also register their concern that historical loss may be an inevitable feature of a modern England and they come to see their narratives as long tapestries that spontaneously rip apart as they grow obliging the weaver to return to repair them Focusing on Renaissance England's perplexing sense of its time boundedness Escobedo presents early national consciousness as stranded awkwardly between the premodern and modern Sir Walter Raleigh, an Annotated Bibliography

Christopher M. Armitage, 1987 **Questioning Bodies in Shakespeare's Rome** Maria Del Sapio Garbero, 2010 Ancient Rome has always been considered a compendium of City and World In the Renaissance an era of epistemic fractures when the clash between the new science Copernicus Galileo Vesalius Bacon etcetera and the authority of ancient texts produced the very notion of modernity the extended and expanding geography of ancient Rome becomes for Shakespeare and the Elizabethans a privileged arena in which to question the nature of bodies and the place they hold in a changing order of the universe Drawing on the rich scenario provided by Shakespeare's Rome and adopting an interdisciplinary perspective the authors of this volume address the way in which the different bodies of the earthly and heavenly spheres are re mapped in Shakespeare's time and in early modern European culture More precisely they investigate the way bodies are fashioned to suit or deconstruct a culturally articulated system of analogies between earth and heaven microcosm and macrocosm As a whole this collection brings to the fore a wide range of issues connected to the Renaissance re mapping of the world and the human It should interest not only Shakespeare scholars but all those working on the interaction between sciences and humanities **Masculinity, Gender and Identity in the English Renaissance Lyric** Catherine Bates, 2007-12-13

In early modern lyric poetry the male poet or lover often appears not as powerful and masterly but rather as broken abject and feminine Catherine Bates examines the cultural and literary strategies behind this representation and uncovers radically alternative models of masculinity in the lyric tradition of the Renaissance Focusing on Sidney Raleigh Shakespeare and Donne she offers astute readings of a wide range of texts a sonnet sequence a blazon an elegy a complaint and an epistle She shows how existing critical approaches have too much invested in the figure of the authoritative male writer to be able to do justice to the truly radical nature of these alternative masculinities Taking direction from psychoanalytic theories of gender formation Bates develops critical strategies that make it possible to understand and appreciate what is genuinely revolutionary about these texts and about the English Renaissance lyric tradition at large
