Six Great American Plays:

100 Greatest American Plays Thomas S. Hischak, 2017-03-06 Theatre in America has had a rich history from the first performance of the Lewis Hallam Troupe in September 1752 to the lively shows of modern Broadway. Over the past few centuries significant works by American playwrights have been produced including *Abie's Irish Rose*, *Long Day's Journey into Night*, *A Streetcar Named Desire*, *Death of a Salesman*, *A Raisin in the Sun*, *Fences*, and *Angels in America*. In *100 Greatest American Plays* Thomas S. Hischak provides an engaging discussion of the best stage productions to come out of the United States. Each play is discussed in the context of its original presentation as well as its legacy. Arranged alphabetically, the entries for these plays include plot details, production history, biography of the playwright, literary aspects of the drama, critical reaction to the play, major awards, the play's influence, cast lists of notable stage and film versions. The plays have been selected not for their popularity but for their importance to American theatre and include works by Edward Albee, Harvey Fierstein, Lorraine Hansberry, Lillian Hellman, Tony Kushner, David Mamet, Arthur Miller, Eugene O'Neill, Sam Shepard, Neil Simon, Gore Vidal, Wendy Wasserstein, Thornton Wilder, Tennessee Williams, and August Wilson. May, 2020-08-09 Earth Matters on Stage Ecology and Environment in American Theater tells the story of how American theater has shaped popular understandings of the environment throughout the twentieth century as it argues for theater's potential power in the age of climate change Using cultural and environmental history seven chapters interrogate key moments in American theater and American

environmentalism over the course of the twentieth century in the United States. It focuses in particular on how drama has represented environmental injustice and how inequality has become part of the American environmental landscape. As the first book-length ecocritical study of American theater, *Earth Matters* examines both familiar dramas and lesser-known grassroots plays in an effort to show that theater can be a powerful force for social change from frontier drama of the late nineteenth century to the eco theater movement. This book argues that theater has always and already been part of the history of environmental ideas and action in the United States. *Earth Matters* also maps the rise of an ecocritical thought and eco theater practice what the author calls ecodramaturgy showing how theater has informed environmental perceptions and policies. Through key plays and productions it identifies strategies for artists who want their work to contribute to cultural transformation in the face of climate change.

Beyond the Golden Door J. Novick, 2008-05-12 *Beyond the Golden Door* is the first book devoted to showing how Jewish playwrights of the twentieth century have dramatized the Jewish encounter with America. Questions dealt within this study include: How do you balance old world heritage with new world opportunity? What does it mean to be a Jew or to be an American for that matter?
