The Encyclopedia of Ephemera is the first work of its kind providing an unparalleled sourcebook with over 400 entries that cover all aspects of everyday documents and artifacts from bookmarks to birth certificates to lighthouse dues papers. Continuing a tradition that started in the Victorian era when disposable paper items such as trade cards, die cuts and greeting cards were accumulated to paste into scrap books, expert Maurice Rickards has compiled an enormous range of paper collectibles from the obscure to the commonplace. His artifacts come from around the world and include such throw away items as cigarette packs and crate labels as well as the ubiquitous faxes, parking tickets and phone cards of daily life. As this major new reference shows, simple slips of paper can speak volumes about status, taste, customs and taboos, revealing the very roots of popular culture.
