The Cultural Politics of Europe Kiran Klaus Patel, 2013-06-07 Culture is one of the most complex and contested fields of European integration This book analyzes EU cultural politics since their emergence in the 1980s with a particular focus on the European Capital of Culture program the flagship of EU cultural policy It discusses both the central as well as local levels and contextualizes EU policies with programmes of other European organisations such as the Council of Europe By asking what Europe actually means for European cultural policy the book goes beyond the confines of official organizations and the political sphere to discuss the contribution impact and appropriation among a more diverse group of actors and participants such as transnational experts local bureaucrats cultural managers urban dwellers and the visitors Its principal aim is to debunk the myth of Brussels as the centre of cultural Europeanization Instead it argues that European cultural policy has to be seen as a relational multi directional movement involving a wide variety of stakeholders and leading to conflicts and collaborations at various levels This book combines the perspectives of political scientists sociologists anthropologists and historians at the intersection between EU urban and cultural studies and changes our understanding of Europeanization by opening up new empirical and conceptual avenues Challenging the dominant interpretation of European cultural policies The Cultural Politics of Europe will be of interest to students and scholars of European studies political scientists sociologists anthropologists geographers historians and cultural studies

The two decades since the last authoritative general history of Dutch Jews was published have seen such substantial developments in historical understanding that new assessment has become an imperative. This volume offers an indispensable survey from a contemporary viewpoint that reflects the new preoccupations of European historiography and allows the history of Dutch Jewry to be more integrated with that of other European Jewish histories. Historians from both older and newer generations shed significant light on all eras providing fresh detail that reflects changed emphases and perspectives. In addition to such traditional subjects as the Jewish community's relationship with the wider society and its internal structure, its leaders and its international affiliations, new topics explored include the socio-economic aspects of Dutch Jewish life seen in the context of the integration of minorities, more widely a reassessment of the Holocaust years and consideration of the place of Holocaust memorialization in community life and the impact of multiculturalist currents on Jews and Jewish politics. Memory studies, diaspora studies, postcolonial studies and digital humanities all play their part in providing the fullest possible picture. This wide-ranging scholarship is complemented by a generous plate section with eighty fully captioned colour illustrations.
