The Kensington Mass:

The Kensington Mass David Jones, 1975 Poetry & Sacrament, 2002 **David Jones** Thomas Dilworth, 2017-04-15

Among the revolutions of the last century none was more important or potentially more lasting than the one in the arts called Modernism. Among the giants of that movement were writers who changed our conceptions of poetry and prose forever. Now well into the new century we can look back to admire and reflect on figures from that period. Last year saw biographies of two monumental poets of Modernism: Robert Crawford's first volume on T. S. Eliot and David Moody's concluding third volume on the life of Ezra Pound. We are excited to announce the first full-length critical biography of the third member too often overlooked of that extraordinary group: The beautifully illustrated *David Jones: Engraver, Soldier, Painter, Poet* by Thomas Dilworth will stand for generations as the great biography this wonderful artist deserves. Jones (1895-1974) was a painter, a wood and copper engraver, and maker of painted inscriptions, but it was as a poet that he left his most lasting mark. Eliot called him one of the most distinguished writers of my generation, and Dylan Thomas said he would like to have done anything as good as David Jones has done. Auden praised his poem *In Parenthesis* as the greatest book ever about the Great War, and *The Anathemata* as one of the truly great poems in Western Literature. His work, the whole of it, enables him to stand alongside Eliot, Pound, and James Joyce as an incomparable figure in literary Modernism.

History of Rockingham and Strafford Counties, New Hampshire, with Biographical Sketches of many of its Pioneers and Prominent Men Duane Hamilton Hurd, 2024-04-09. Reprint of the original first published in 1882.

David Jones, Disability and Modernist Form Colette Nic Aodha, 2025-10-16. Employing a fresh theoretical approach to David Jones's work, this is the first book to use disability studies as a lens through which to consider his post-war work. Unpacking the distinct corporeality in the work of Welsh modernist maker, poet, painter, and engraver David Jones (1895-1974) that emerges from the trauma of Jones's participation in the Great War, this book frames the complex modes of embodiment in his post-war work. In doing so, it relates Jones's pioneering visual art and poetic form to antecedents William Blake and modern artists Sarah Lucas and Damien Hirst while using materiality to form connections between modernism, disability, and the liturgy of the Eucharist upon which Jones centres his work.
