The Killings:

The Killing Season Geoffrey B. Robinson, 2018-02-13 *The Killing Season* explores one of the largest and swiftest yet least examined instances of mass killing and incarceration in the twentieth century the shocking antileftist purge that gripped Indonesia in 1965-66 leaving some five hundred thousand people dead and more than a million others in detention An expert in modern Indonesian history genocide and human rights Geoffrey Robinson sets out to account for this violence and to end the troubling silence surrounding it In doing so he sheds new light on broad and enduring historical questions How do we account for instances of systematic mass killing and detention Why are some of these crimes remembered and punished while others are forgotten What are the social and political ramifications of such acts and such silence Challenging conventional narratives of the mass violence of 1965-66 as arising spontaneously from religious and social conflicts Robinson argues convincingly that it was instead the product of a deliberate campaign led by the Indonesian Army He also details the critical role played by the United States Britain and other major powers in facilitating mass murder and incarceration Robinson concludes by probing the disturbing long term consequences of the violence for millions of survivors and Indonesian society as a whole Based on a rich body of primary and secondary sources *The Killing Season* is the definitive account of a pivotal period in Indonesian history It also makes a powerful contribution to wider debates about the dynamics and legacies of mass killing incarceration and genocide

The Killing Wind Tan Hecheng, 2016-12-14 Over the course of 66 days in 1967 more than 4 000 class enemies including young children and the elderly were murdered in Daoxian a county in China's Hunan province The killings spread to surrounding counties resulting in a combined death toll of more than 9 000 Commonly known as the Daoxian massacre the killings were one of many acts of so called mass dictatorship and armed factional conflict that rocked China during the Cultural Revolution However in spite of the scope and brutality of the killings there are few detailed accounts of mass killings in China's countryside during the Cultural Revolution's most tumultuous years Years after the massacre journalist Tan Hecheng was sent to Daoxian to report on an official investigation into the killings Tan was prevented from publishing his findings in China but in 2010 he published the Chinese edition of *The Killing Wind* in Hong Kong Tan's first hand investigation of the atrocities accumulated over the course of more than 20 years blends his research with the recollections of survivors to provide a vivid account exploring how and why the massacre took place and describing its aftermath Dispelling the heroic aura of class struggle Tan reveals that most of the Daoxian massacre's victims were hard working peaceful members of the rural middle class blacklisted as landlords or rich peasants Tan also describes how political pressure and brainwashing turned ordinary people into heartless killing machines More than a catalog of horrors *The Killing Wind* is also a poignant meditation on memory moral culpability and the failure of the Chinese government to come to terms with the crimes of the Maoist era By painting a detailed portrait of this massacre Tan makes a broader argument about the long term consequences of the Cultural Revolution one of the most violent political movements

of the twentieth century A compelling testament to the victims and survivors of the Daoxian massacre The Killing Wind is a monument to historical truth one that fills an immense gap in our understanding of the Mao era the Cultural Revolution and the status of truth in contemporary China **Behind the Killing Fields** Gina Chon,Sambath Thet,2011-06-03 In recent history atrocities have often been committed in the name of lofty ideals One of the most disturbing examples took place in Cambodia s Killing Fields where tens of thousands of victims were executed and hastily disposed of by Khmer Rouge cadres Nearly thirty years after these bloody purges two journalists entered the jungles of Cambodia to uncover secrets still buried there Based on more than 1 000 hours of interviews with the top surviving Khmer Rouge leader Nuon Chea Behind the Killing Fields follows the journey of a man who began as a dedicated freedom fighter and wound up accused of crimes against humanity Known as Brother Number 2 Chea was Pol Pot s top lieutenant He is now in prison facing prosecution in a United Nations Cambodian tribunal for his actions during the Khmer Rouge rule when more than two million Cambodians died The book traces how the seeds of the Killing Fields were sown and what led one man to believe that mass killing was necessary for the greater good Coauthor Sambath Thet a Khmer Rouge survivor shares his personal perspectives on the murderous regime and how some victims have managed to rebuild their lives The stories of Nuon Chea and Sambath Thet collide when the two meet While Thet holds Chea responsible for the death of his parents and brother he strives for understanding over revenge in order to reveal the forces that destroyed his homeland in the name of creating utopia In this age of suicide bombers and terror alerts the world is still at a loss to comprehend the violence of zealots Behind the Killing Fields bravely confronts this challenge in an exclusive portrait of one man s political madness and another s personal wisdom

The Killings in South Africa Africa Watch Committee,1991 *President Rodrigo Duterte and the War on Drugs* William N. Holden,2021-10-01 Since his election in 2016 Philippine president Rodrigo Duterte has directed a brutal anti drug campaign rife with extrajudicial killings Interpreting the war on drugs through the conceptual frameworks of penal populism noble cause corruption revanchism and state terrorism William N Holden argues the war on drugs has failed to achieve its purpose follows trends of authoritarian populism and overlooks a more pressing social issue the vulnerability of the Philippines to climate change **The Army and the Indonesian Genocide** Jess Melvin,2018-01-19 For the past half century the Indonesian military has depicted the 1965 66 killings which resulted in the murder of approximately one million unarmed civilians as the outcome of a spontaneous uprising This formulation not only denied military agency behind the killings it also denied that the killings could ever be understood as a centralised nation wide campaign Using documents from the former Indonesian Intelligence Agency s archives in Banda Aceh this book shatters the Indonesian government s official propaganda account of the mass killings and proves the military s agency behind those events This book tells the story of the 3 000 pages of top secret documents that comprise the Indonesian genocide files Drawing upon these orders and records along with the previously unheard stories of 70 survivors perpetrators and other eyewitnesses of the genocide in Aceh province

it reconstructs for the first time a detailed narrative of the killings using the military's own accounts of these events This book makes the case that the 1965-66 killings can be understood as a case of genocide as defined by the 1948 Genocide Convention The first book to reconstruct a detailed narrative of the genocide using the army's own records of these events it will be of interest to students and academics in the field of Southeast Asian Studies History Politics the Cold War Political Violence and Comparative Genocide *The Killings at A.B.U., Friday, May 23, 1986!* Academic Staff Union of Universities (Nigeria). Ahmadu Bello University Branch, 1986 *The Killing Consensus* Graham Denyer Willis, 2015-03-21 We hold many assumptions about police work that it is the responsibility of the state or that police officers are given the right to kill in the name of public safety or self defense But in *The Killing Consensus* Graham Denyer Willis shows how in S o Paulo Brazil killing and the arbitration of normal killing in the name of social order are actually conducted by two groups the police and organized crime both operating according to parallel logics of murder Based on three years of ethnographic fieldwork Willis's book traces how homicide detectives categorize two types of killing the first resulting from resistance to police arrest which is often broadly defined and the second at the hands of a crime family known as the Primeiro Comando da Capital PCC Death at the hands of police happens regularly while the PCC's centralized control and strict moral code among criminals has also routinized killing ironically making the city feel safer for most residents In a fractured urban security environment where killing mirrors patterns of inequitable urbanization and historical exclusion along class gender and racial lines Denyer Willis's research finds that the city's cyclical periods of peace and violence can best be understood through an unspoken but mutually observed consensus on the right to kill This consensus hinges on common notions and street level practices of who can die where how and by whom revealing an empirically distinct configuration of authority that Denyer Willis calls sovereignty by consensus ***The Killing State*** Austin Sarat, 2001 *The Killing State* offers an explanation of why the USA clings to capital punishment long after other democratic nations have abandoned the procedure *North Carolina Reports* North Carolina.
