The Kumquat Statement John R. Coyne (jr.),1970 *Strictly Right* Linda Bridges,John R. Coyne, Jr.,2007-04-13 An affectionate portrait of the man who started it all With this graceful homage to Bill Buckley two people who have known the pleasure of his company as friends and colleagues place him where he incontestably belongs at the center of the conservative political movement that moved the center of American politics to the right George F Will Newsweek *Strictly Right* paints an intimate and penetrating portrait of the elegant and multifaceted figure who has helped to add a new dimension to the American political canvas Henry A Kissinger Bill and I and others have been good friends for almost sixty years and I thought I knew of his life as well as anyone but Linda and John have brought the events together in a magnificent story that surpasses all that we have absorbed If you like and admire Bill you must read this If you don t read it anyway it will be good for you Evan G Galbraith former Ambassador to France and Chairman of National Review Linda Bridges and John Coyne evoke the true old times when every morning brought a noble chance and every chance brought out William F Buckley Jr ready to write speak question provoke tease or praise in print in person or on the tube as required All honor to him and to the authors who capture him in these pages Richard Brookhiser author of *What Would the Founders Do Our Questions Their Answers* [The Kumquat Statement](#) John R. Rorabaugh

Professor of History University of Washington,1989-05-04 **Berkeley California** was the bellwether of the political social and cultural upheaval that made the 1960s a unique period of American history a time when the top down methods of a conservative establishment collided head on with the bottom up grass roots ethos of the civil rights movement and an increasingly well educated and individualistic middle class W J Rorabaugh who attended the graduate school of the University of California at Berkeley in the early 1970s presents a lively and informative account of the events that overtook and changed forever what had once been a quiet conservative white suburb The rise of the Free Speech Movement which gave a voice to disfranchised students the growth and increasing militance of a black community struggling to end segregation the emergence of radicalism and the anti war movement the blossoming of hippie culture with its scorn for materialism and enthusiasm for experimentation with everything from sex and drugs to Eastern philosophies the beginnings of modern day feminism and environmentalism and how all of these coalesced in the explosive conflict over People's Park are traced in a meticulously researched and authoritative narrative At issue was the question of power and the struggle between the establishment and the powerless led to developments that the advocates of a freer society could scarcely have foreseen Ronald Reagan elected governor of California in reaction to the events at Berkeley and Edwin H Meese III who battled

against the student movement and People's Park rose to national power in the 1980s without however gaining any popularity in Berkeley where Walter Mondale won 83 percent of the vote in 1984. An invaluable account of its time and place, this book anchors the 60s in American history both before and since that colorful decade.
