The Kybalion Hermetic Philosophy originally published in 1908 under the pseudonym of the Three Initiates is a book claiming to be the essence of the teachings of Hermes Trismegistus. The Kybalion Hermetic Philosophy originally published in 1908 under the pseudonym of the Three Initiates is a book claiming to be the essence of the teachings of Hermes Trismegistus. Since 1908, it has served as a study of basic hermetic teachings that outline an ageless wisdom. In ancient times and even today, these teachings were not understood by the lay person but were readily understood by students after the axioms and principles had been explained and exemplified by the Hermetic Initiates and Masters to their Neophytes. The purpose of this work is not the enunciation of any special philosophy or doctrine but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study. Our intent is not to erect a new Temple of Knowledge but rather to place in the hands of the student a Master Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered.
