The Labors Of Sisyphus The Economic Development Of Communist China:

The Labors of Sisyphus Maria Hsia Chang, 1999-10-01 Maria Hsia Chang's *The Labors of Sisyphus* is a reassessment of the meaning and purpose of the Chinese communist revolution. In it she discusses the thought of Mao Zedong and Deng Xiaoping reform and its dilemmas regionalism in greater China and autonomous areas and nationalism. She also examines China's immediate present and uncertain future. If it manages to transform economic growth into development, China, filled with natural resources and a large capable labor force, has the potential to become a world superpower. It could also collapse under the weight of its own problems regionalism a flawed state sector corruption and a pronounced decline in state capacity. If China succeeds an imposing new economic power will enter the global stage one that is often arbitrary and prone to despotism and xenophobia unless it is tempered by political reform. *The Labors of Sisyphus* Joan Roland, 2017-07-05

Almost a half century has passed since the inception of the People's Republic of China. In that time a charismatic leader has ruled and died leaving a wake of Destruction in his quest to transform China. In that time too the PRC's most powerful ally and mentor the Soviet Union has dismantled and announced that communism had failed. Today China fluctuates between tradition and modernity ideology and pragmatism between an antiquated collectivist ethic and a new spirit of individualism. It is a country precariously suspended between past and future. Maria Hsia Chang's *The Labors of Sisyphus* is a long overdue reassessment of the meaning and purpose of the Chinese communist revolution. In it she discusses the thought of Mao Zedong and Deng Xiaoping reform and its dilemmas regionalism in greater China and autonomous areas and nationalism. She also examines China's immediate present and uncertain future. If it manages to transform economic growth into development, China, filled with natural resources and a large capable labor force, has the potential to become a world superpower. It could also collapse under the weight of its own problems regionalism a flawed state sector corruption and a pronounced decline in state capacity. If China succeeds an imposing new economic power will enter the global stage one that is often arbitrary and prone to despotism and xenophobia unless it is tempered by political reform. Prior accounts of communist China have failed to capture China's evolving present. In all its complexity and variety misrepresenting Maoist China. In the process Information shortfall was partly to blame as recently as August 1994 the Chinese government itself decried falsification of statistics by government officials and cadres. Sinologists in the 1960s and 1970s had to approach analysis of contemporary China with clear recognition of the limitations involved and the questionable validity of the factual sources available. Maria Hsia Chang lends structure meaning and purpose to the very complex recent political and historical past of communist China. With greater access to more accurate information Chang is able to analyze objectively without political motive or intention providing readers with a fresh look at the People's Republic. Her pathbreaking work will be of interest to scholars of international economics and politics sinologists and historians. *The Labors of Sisyphus* Maria Hsia Chang, 1999-10-01

Return Of The Dragon Maria H Chang,2018-05-04 As Maoism recedes and especially after the 1989 Tiananmen Square massacre Beijing has increasingly turned to patriotic nationalism for its ideological inspiration and legitimation Return of the Dragon begins with a discussion of the definitions typologies and theories of nationalism The formation and development of the Chinese people are explored including their myths of origins early beginnings the classical feudal period and the enduring state and empire of the Middle Kingdom The Opium War began the hundred years of humiliation when dynastic China steadily deteriorated and eventually succumbed to the forces unleashed by imperialism Western and Japanese imperialism also transformed the Chinese from a people into a nation The ideas of early Chinese nationalists are explored particularly those of Sun Yat sen whose thought stands in stark contrast to those of Mao but shares significant similarities with the developmental nationalism of Deng Xiaoping The last chapters of Return of the Dragon describe contemporary China s patriotic nationalism as it is represented in the writings of Chinese intellectuals the youth and the military The portrait that emerges is a disquieting mix of narcissism and insecurity wounded pride and resentment a Darwinian worldview and an irredentist resolve to restore China to its former glory The book concludes with an examination of the Chinese polity that remains authoritarian as well as U S policy implications

Copper,2016-04-29 Today by many accounts China is the world s foremost purveyor of foreign aid and foreign investment to developing countries This is the product of China s miracle economic growth over a period of more than three decades together with China s drive to become a major player in world

affairs and accomplish this through economic rather than military means This three volume work is the first comprehensive study of China s aid and investment strategy to trace how it has evolved since Beijing launched its foreign aid diplomacy at the time of the founding of the People s Republic of China in 1949 Volume I examines the definitions origins nature and scope of foreign aid and investment by other countries Using that background John F Copper then traces China s financial assistance to developing countries from the Mao period when China gave meaningful foreign aid despite its own economic struggles through the beginning of China s post 1978 economic boom and during subsequent decades of rapid economic growth Copper shows that China has a more salient history in giving foreign assistance than any other country in the world while China s objectives in giving foreign assistance have changed markedly over time China has always been driven by efforts to realize its foreign policy objectives and expand China s external influence *Playing with Fire* John F.
