The Heidegger Controversy A Critical Reader:

The Heidegger Controversy Richard Wolin,1993 Heidegger's 'Being and Time' William Blattner,2023-11-16

Heidegger's *Being and Time* is one of the most influential and controversial philosophical treatises of the 20th century. But what exactly are the ideas that so profoundly impacted Sartre's existentialism, influenced Gadamer's hermeneutics, and paved the way for the emergence of deconstruction? And what or who is *Dasein*? Answering these questions and more, this guide is an essential resource for anyone wanting to get to grips with Heidegger's magnum opus. Updated with the latest scholarship, the new 2nd edition features updated and increased engagement with the secondary literature on the treatise, expanded coverage to guide readers through both Division I and Division II, elucidating Heidegger's thinking on time, history, and space. References throughout to the leading English translations by Macquarrie and Robinson. Updated study questions linking complex philosophical concepts to everyday life and an extended glossary of key terms. **Changing Religious Worlds**

Bryan Rennie,2001-01-01. Assesses Mircea Eliade's contribution to the contemporary understanding of religion and the academic study of religion. **Toward a Concrete Philosophy** Mikko Immanen,2020-11-15. Toward a Concrete Philosophy explores the reactions of Theodor Adorno, Max Horkheimer, and Herbert Marcuse to Martin Heidegger prior to their dismissal of him once he turned to the Nazi party in 1933. Mikko Immanen provides a fascinating glimpse of the three future giants of twentieth-century social criticism when they were still looking for their philosophical voices. By reconstructing their overlooked debates with Heidegger and Heideggerians, Immanen argues that Adorno, Horkheimer, and Marcuse saw Heidegger's 1927 magnum opus *Being and Time* as a serious effort to make philosophy relevant for life again and as the most provocative challenge to their nascent materialist diagnoses of the discontents of European modernity. Our knowledge of Adorno's Frankfurt discussion with Frankfurt Heideggerians remains anecdotal even though it led to a proto version of Dialectic of Enlightenment's idea of the entwinement of myth and reason. Similarly, Horkheimer's enthusiasm over Heidegger's legendary post-World War I lectures and criticism of *Being and Time* have escaped attention almost entirely. And Marcuse's intriguing debate with Heidegger over Hegel and the origin of the problematic of being and time has remained uncharted until now. Reading these debates as fruitful intellectual encounters rather than hostile confrontations, *Toward a Concrete Philosophy* offers scholars of critical theory a new thought-provoking perspective on the emergence of the Frankfurt School as a rejoinder to Heidegger's philosophical revolution. **Heidegger's Children** Richard Wolin,2015-08-25. Martin Heidegger is perhaps the twentieth century's greatest philosopher, and his work stimulated much that is original and compelling in modern thought. A seductive classroom presence, he attracted Germany's brightest young intellectuals during the 1920s. Many were Jews who ultimately would have to reconcile their philosophical and often personal commitments to Heidegger with his nefarious political views. In 1933, Heidegger cast his lot with National Socialism. He squelched the careers of Jewish students and denounced fellow professors whom he considered insufficiently radical. For years, he signed letters and

opened lectures with Heil Hitler He paid dues to the Nazi party until the bitter end Equally problematic for his former students were his sordid efforts to make existential thought serviceable to Nazi ends and his failure to ever renounce these actions This book explores how four of Heidegger s most influential Jewish students came to grips with his Nazi association and how it affected their thinking Hannah Arendt who was Heidegger s lover as well as his student went on to become one of the century s greatest political thinkers Karl L with returned to Germany in 1953 and quickly became one of its leading philosophers Hans Jonas grew famous as Germany s premier philosopher of environmentalism Herbert Marcuse gained celebrity as a Frankfurt School intellectual and mentor to the New Left Why did these brilliant minds fail to see what was in Heidegger s heart and Germany s future How would they after the war reappraise Germany s intellectual traditions Could they salvage aspects of Heidegger s thought Would their philosophy reflect or completely reject their early studies Could these Heideggerians forgive or even try to understand the betrayal of the man they so admired Heidegger s Children locates these paradoxes in the wider cruel irony that European Jews experienced their greatest calamity immediately following their fullest assimilation And it finds in their responses answers to questions about the nature of existential disillusionment and the juncture between politics and ideas

America's Shadow William V. Spanos, 2000 A study of imperialism that stretches from ancient Rome to the post Cold War World this provocative work boldly revises our assumptions about the genealogy of the West Rather than locating its source in classical Greece William V Spanos argues we should look to ancient Rome which first articulated the ideas that would become fundamental to the West s imperial project These founding ideas he claims have informed the American national identity and its foreign policy from its origins The Vietnam War is at the center of this book In the contradiction between the free world logic employed to justify U S intervention in Vietnam and the genocidal practices used to realize that logic Spanos finds the culmination of an imperialistic discourse reaching back to the colonizing rationale of the Roman Empire Spanos identifies the language of expansion in the white metaphors in Western philosophical discourse since the colonization of Greek thought by the Romans He shows how these metaphors and their role in metaphysical discourse have long been complicit in the violence of imperialism

Poststructuralism and Critical Theory's Second Generation Alan D. Schrift, 2014-09-11 Poststructuralism and Critical Theory s Second Generation analyses the major themes and developments in a period that brought continental philosophy to the forefront of scholarship in a variety of humanities and social science disciplines and that set the agenda for philosophical thought on the continent and elsewhere from the 1960s to the present Focusing on the years 1960 1984 the volume examines the major figures associated with poststructuralism and the second generation of critical theory the two dominant movements that emerged in the 1960s Althusser Foucault Deleuze Derrida Lyotard Irigaray and Habermas Influential thinkers such as Serres Bourdieu and Rorty who are not easily placed in standard histories of the period are also covered Beyond this thematic essays engage with issues as diverse as the Nietzschean legacy the linguistic turn in continental thinking the phenomenological inheritance of Gadamer

and Ricoeur the influence of psychoanalysis the emergence of feminist thought and a philosophy of sexual difference the renewal of the critical theory tradition and the importation of continental philosophy into literary theory New Paths in Jewish and Religious Studies Glenn Dynner, Susannah Heschel, Shaul Magid, 2024-06-15 The work of Elliot R Wolfson has profoundly influenced the fields of Jewish studies as well as philosophy and religion more broadly His radically new approaches have created pioneering ways of analyzing texts and thinking about religion through the lens of gender sexuality and feminist theory The contributors to New Paths in Jewish and Religious Studies Essays in Honor of Professor Elliot R Wolfson many of whom are internationally renowned scholars hearken from diverse fields Each has learned from and collaborated with Wolfson as student or colleague and each has expanded the new scholarly directions initiated by Wolfson s groundbreaking work Wolfson s scholarship gives us innovative ways to think about Judaism and a fresh understanding of religion Not only a scholar Wolfson is one of the most important Jewish thinkers of our day Chapters are grouped according to the categories of religion Jewish thought and philosophy and a focused section on Kabbalah Wolfson s primary specialization The volume concludes with a bibliography of Wolfson s published work and a selection of his poetry **The Subject of Coexistence** Louiza Odysseos, Odysseos traces the institutional neglect of coexistence to the ontological commitments of international relations as a modern social science predicated on conceptions of modern subjectivity The Ruse of Techne Dimitris Vardoulakis, 2024-09-03 The Ruse of Techne offers a reappraisal of Heidegger s entire work by focusing on the forms of activity he regards as separate from instrumentality Non instrumental activities like authenticity poetry and thinking in short the ineffectual are critical for Heidegger as they offer the only path to the truth of being throughout his work By unearthing the source of the conception of non instrumental action in Heidegger s reading of Aristotle Vardoulakis elaborates how it forms part of Heidegger s response to an old problem namely how to account for difference after positing a single and unified being that is not amenable to change He further demonstrates that an action without ends and effects leads to an ethics and politics rife with difficulties and contradictions that only become starker when compared to other responses to the same problem that we find in the philosophical tradition and which rely on instrumentality Heidegger s conception of an action without ends or effect forgets the role of instrumentality in the tradition that posits a single unified being And yet the ineffectual has had a profound influence in how continental philosophy determines the ethical and the political since World War II The critique of the ineffectual in Heidegger is thus effectively a critique of the conception of praxis in continental philosophy Vardoulakis proposes that it is urgent to undo the forgetting of instrumentality if we are to conceive of a democratic politics and an ethics fit to respond to the challenges of high capitalism Critical Theorists and International Relations Jenny Edkins, Nick Vaughan-Williams, 2009-02-10 Covering a broad range of approaches within critical theory including Marxism and post Marxism hermeneutics feminism queer theory deconstruction and psychoanalysis this book provides students with an introduction to 32 key critical theorists whose work has been

influential in the field of international relations Hannah Arendt Rebecca Dew, 2020-05-30 This book presents an incisive survey of twentieth century transatlantic ideational exchange The author argues that German American political thinker Hannah Arendt is to be distinguished not only from the French side of the existentialist movement but singled out from Heidegger on the German side as well The primary feature of Arendt's existentialism is its practicality in political terms its acknowledgment of the vital need for viable public spaces of vocalization action and interaction its recommendation of councils constitutions and other structural foundations for the visible presentation of politics and the applicability of her view of political action to her estimation of authentic human living Drawing from the work of Karl Jaspers as her primary exemplar conclusions are made as to the degree to which Arendt's existentialism thereby identified as atypical is to be assessed as postmodern without going so far as to declare her intellectual bent postmodernist *Palgrave Handbook of Critical Posthumanism* Stefan Herbrechter, Ivan Callus, Manuela Rossini, Marija Grech, Megen de Bruin-Molé, Christopher John Müller, 2022-11-28 *Palgrave Handbook of Critical Posthumanism* is a major reference work on the paradigm emerging from the challenges to humanism humanity and the human posed by the erosion of the traditional demarcations between the human and nonhuman This handbook surveys and speculates on the ways in which the posthumanist paradigm emerged transformed and might further develop across the humanities With its focus on the posthuman as a figure on posthumanism as a social discourse and on posthumanisation as an on going historical and ontological process the volume highlights the relationship between the humanities and sciences The essays engage with posthumanism in connection with subfields like the environmental humanities health humanities animal studies and disability studies The book also traces the historical representations and understanding of posthumanism across time Additionally the contributions address genre and forms such as autobiography games art film museums and topics such as climate change speciesism anthropocentrism and biopolitics to name a few This handbook considers posthumanism's impact across disciplines and areas of study

Contemporary Continental Philosophy Robert D'amico, 2018-02-12 This book shows how the continental philosophical tradition developed in the twentieth century in a philosophically distinct manner It focuses on the central philosophical ideas specifically the core issues in epistemology and ontology that constitute this tradition or approach as distinct

Confronting Mass Democracy and Industrial Technology John P. McCormick, 2002 With a groundbreaking interdisciplinary approach to German political and social theory *Confronting Mass Democracy and Industrial Technology* provides fresh insight into the thought of many of the most influential intellectual figures of the twentieth century Its essays detail the manner in which a wide range of German intellectuals grappled with the ramifications and implications of democracy technology knowledge and control from the late Kaiserreich to the Weimar Republic from the Third Reich and the Federal Republic through recently unified Germany Scholars representing the fields of political science philosophy history law literature and cultural studies devote essays to the work of Nietzsche Weber Heidegger Lukács Schmitt Marcuse

Adorno and Habermas They also discuss the writings of such figures as Brecht and Freud who are not primarily thought of as political theorists and explore the thought of Helmut Plessner and reformist theorists from East Germany who have been little studied in the English language In the process of debating the nature and responsibilities of the modern state in an era of mass politics unparalleled military technology capacity for surveillance and global media presence the contributors question whether technology is best understood as an instrument of human design and collective control or as an autonomous entity that not only has a will and life of its own but one that forms the very fabric of modern humanity

Contributors Seyla Benhabib Richard J Bernstein Peter C Caldwell Richard Dienst David Dyzenhaus Andrew Feenberg Nancy S Love John P McCormick Jan Werner Müller Gia Pascarelli William E Scheuerman Steven B Smith Tracy B Strong Richard Wolin

The Oxford Handbook of Victorian Literary Culture Juliet John, 2016-06-30 The Oxford Handbook of Victorian Literary Culture is a major contribution to the dynamic field of Victorian studies This collection of 37 original chapters by leading international Victorian scholars offers new approaches to familiar themes including science religion and gender and gives space to newer and emerging topics including old age fair play and economics Structured around three broad sections Ways of Being Identity and Ideology Ways of Understanding Knowledge and Belief and Ways of Communicating Print and Other Cultures the volume is sub divided into nine sub sections each with its own lead essay on subjectivity politics gender and sexuality place and race religion science material and mass culture aesthetics and visual culture and theatrical culture The collection like today's Victorian studies is thoroughly interdisciplinary and yet its substantial Introduction explores a concern which is evident both implicitly and explicitly in the volume's essays that is the nature and status of literary culture and the literary from the Victorian period to the present The diverse and wide ranging essays present original scholarship framed accessibly for a mixed readership of advanced undergraduates graduate students and established scholars

The Great Adaptation Guilherme Pratti, 2024-12-09 This timely book puts forward a novel understanding of the ongoing relationship between the law regulation technology and science with the goal of helping to mitigate and adapt to the severe environmental and societal impacts of climate change

Intellectual Imagination Omedi Ochieng, 2018-06-25 The Intellectual Imagination unfolds a sweeping vision of the form meaning and value of intellectual practice The book breaks new ground in offering a comprehensive vision of the intellectual vocation Omedi Ochieng argues that robust and rigorous thought about the form and contours of intellectual practices is best envisioned in light of a comprehensive critical contextual ontology that is a systematic account of the context forms and dimensions in and through which knowledge and aesthetic practices are created embodied translated and learned Such an ontology not only accounts for the embeddedness of intellectual practices in the deep structures of politics economics and culture but also in turn demonstrates the constitutive power of critical inquiry It is against this background that Ochieng unfolds a multidimensional and capacious theory of knowledge and aesthetics In a critique of the oppositional binaries that now reign in the modern and postmodern academy

binaries that pit fact versus value science versus the humanities knowledge versus aesthetics Ochieng argues for the inextricable intertwinement of reason interpretation and the imagination The book offers a close and deep reading of North Atlantic and African philosophers thereby illuminating the resonances and contrasts between diverse intellectual traditions The upshot is an incisively rich layered and textured reading of the archetypal intellectual styles and aesthetic forms that have fired the imagination of intellectuals across the globe Ochieng's book is a radical summons to a practice and an imagination of the intellectual life as the realization of good societies and good lives **Force of God** Carl A.

Raschke,2015-08-11 For theorists in search of a political theology that is more responsive to the challenges now facing Western democracies this book tenders a new political economy anchored in a theory of value The political theology of the future Carl Raschke argues must draw on a powerful hidden impetus the force of God to frame a new value economy It must also embrace a radical faith based revolutionary style of theory that reconceives the power of the theological in political thought and action Raschke ties democracy's retreat to the West's failure to confront its decadence and mobilize its vast spiritual resources Worsening debt rising unemployment and gross income inequality have led to a crisis in political representation and values that twentieth century theorists never anticipated Drawing on the thought of Hegel and Nietzsche as well as recent work by Michel Foucault Jacques Derrida Jean Joseph Goux Giorgio Agamben and Alain Badiou among others Raschke recasts political theology for a new generation He proposes a bold uncompromising critical theory that acknowledges the enduring significance of Marx without his materialism and builds a vital more spiritually grounded relationship between politics and the religious imaginary **The Reluctant Modernism of Hannah Arendt** Seyla

Benhabib,2003 Interpreting the work of one of the most influential thinkers of the 20th century The Reluctant Modernism of Hannah Arendt rereads Arendt's political philosophy in light of newly gained insights into the historico cultural background of her work Arguing against the standard interpretation of Hannah Arendt as an anti modernist lover of the Greek polis author Seyla Benhabib contends that Arendt's thought emerges out of a double legacy German Existenz philosophy particularly the thought of Martin Heidegger and her experiences as a German Jewess in the age of totalitarianism This important volume reconsiders Arendt's theory of modernity her concept of the public sphere her distinction between the social and the political her theory of totalitarianism and her critique of the modern nation state including her life long involvement with Jewish and Israeli politics

Enjoying the Song of Phrase: An Emotional Symphony within **The Heidegger Controversy A Critical Reader**

In some sort of eaten by screens and the ceaseless chatter of instant communication, the melodic elegance and mental symphony developed by the written word often fade into the back ground, eclipsed by the persistent noise and interruptions that permeate our lives. But, located within the pages of **The Heidegger Controversy A Critical Reader** a charming fictional value brimming with fresh feelings, lies an immersive symphony waiting to be embraced. Crafted by an elegant musician of language, this captivating masterpiece conducts visitors on a mental journey, skillfully unraveling the hidden tunes and profound impact resonating within each carefully constructed phrase. Within the depths with this touching evaluation, we will explore the book is central harmonies, analyze their enthralling publishing type, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
