The Knowing:

The Knowing of Thomas James Alan James, 2011-10-18 The Knowing of Thomas James In May of 1906 a telegram was delivered to the Methodist Manse home of the Reverend Thomas Albert James in Albany on the Southern tip of Western Australia Mr James has been accidentally drowned Body not recovered Particulars posted today Deep regret Robert Hunter These few words were to alter forever the lives of the James family They were to unleash such a scandal that Thomas s family fled the town in shame and his church ex communicated him The true story behind these events ran in newspapers across the country throughout 1906 This truth was deliberately buried by Mrs James and the family a taboo not to be mentioned a mystery that remained hidden from successive generations for nearly a century The Reverend Thomas James was no ordinary rural parson He had risen to the pinnacle of leadership of the church in Western Australia but was a controversial character at loggerheads with the hierarchy of his church In the aftermath of the events of 1906 the church records too were embargoed until the year 2000 such was the magnitude of his indiscretion In 1906 Thomas James disappeared in circumstances that scandalized the church and shocked the family and society to the core None of thirteen grandchildren ever knew their grandfather All were denied the truth until this story was written The Knowing of Thomas James has come as a revelation to his descendants For one branch of the family knew who he had been but knew nothing of what became him and another branch of the family had absolutely no knowing of their grandfather at all The impact and implications of this story are being felt to this day The story was written as the result of more than two decades of research It was a story that needed to be told for the sake of the families It was told to honour a promise made to one of Thomas James s grandchildren A promise to my own father for Thomas Albert James is my great grandfather Essentially this is a family history and that was its design however it was my opinion that many family histories have limited appeal to any but those connected It was always my intention to take the factual bones of research and imbue them with the flesh and blood of feelings and emotions I have tried to enter the hearts and minds of the many characters touched by these tumultuous events in a story that has appeal to all Each of the characters in this drama is introduced as the family moves across the years toward the fateful point in time when the shocking events unfold For the family the facts are presented in detail for all to find I make no apology for the creative licence taken in interpreting these events and attributing motives to those involved in this story I have created my own explanation of the actual events portrayed in a way that I hope is attractive for readers who have no personal connection to this story I have liberally included actual material as and when I felt it appropriate to do so with the generous support of the newspapers of the day This is a fiction built on the truth of a very real story Were this story to be played out today it would surely make the headlines and be fed upon by our salacious modern media However these events were set in a time long passed in the strict moral world of Victorian Australia at the opening of the twentieth century My great grandmother and her children sought refuge from the humiliation of these events by moving to a farm on the beautiful Kalgan River twenty miles

east of Albany My grandfather and then my father in his turn farmed this property Today my brother is the farmer and I too live on the property within sight of the original farmhouse and of the river I am by profession a teacher of History and have worked for more than twenty five years at the main High School in Albany I knew nothing of the story until 1988 when I encountered reference to Thomas James in the history of his sister s family Not [Slang and Its Analogues Past and Present](#) William Ernest Henley,1896 **Whole Systems Design** Diana Claire Douglas,2022-03-18 Whole Systems Design Inquiries in the Knowing Field is an open invitation and an inspiration for Innovators System Designers Leaders Change Agents and Constellators anyone who wishes to live and work from a whole systems perspective It is for people new to working with complex systems as well as for those who will enjoy engaging with its practitioners its concepts and its emerging history It is a book of stories conversations and interviews about finding ways to serve Life to serve humanity to serve the Whole through a process which has been emerging through the author Constellating for the Collective a process that itself has emerged from Systemic Constellation Work and the Knowing Field Whole Systems Design opens with the author s journey letting readers behind the curtain of facilitation She describes the pragmatic steps and tools she has developed with deep dedication over many years She includes a succinct description of the impact of this work on participants and for the Collective Lively conversations with colleagues trace the collaboration and co creation vital in this evolving field Nine interviews with long time facilitators and trainers of Constellation Work who share their insights about Collective Constellation Work provide a rich resource **Plato, the Man and His Work** Alfred Edward Taylor,1926 [Humans, Animals and Biopolitics](#) Kristin Asdal,Tone Druglitrø,Steve Hinchliffe,2016-07-01 Human animal co existence is central to a politics of life how we order societies and to debates about who we humans think we are In other words our ways of understanding and ordering human animal relations have economic and political implications and affect peoples everyday lives By bringing together historically oriented approaches and contemporary ethnographies which engage with science and technology studies STS this book reflects the multi sided multi species multi logic and multiple ways in which lives are and have been assembled disassembled practised and possibly policed and politicized Instead of asking only how control and knowledge are and have been extended over life the chapters in this book also look at what happens when control fails at practices which defy orders escape detection fail to produce or only loosely hang together In doing so the book problematises and extends the Foucauldian notion of biopolitics that has been such a central analytical concept in studies of human animal relations and provides a unique resource of cases and theoretical refinements regarding the ways in which we live together with more than human others [Picks and Shovels](#) Cory Doctorow,2025-02-18 New York Times bestselling author Cory Doctorow returns to the world of Red Team Blues to bring us the origin story of Martin Hench and the most powerful new tool for crime ever invented the personal computer The year is 1986 The city is San Francisco Here Martin Hench will invent the forensic accountant what a bounty hunter is to people he is to money but for now he s an MIT dropout odd jobbing his way around a city still

The New Apologetics Ian S. Markham,2020-03-27 Skepticism about Christianity abounds Building on the

work of Charles Taylor Ian S Markham argues that contemporary skepticism is more a mood than an intellectual repudiation of Christian theology In its attempt to accommodate science the church too often opts for deistic responses that take the spiritual out of the material Against this response Markham argues for a rich imaginative account of the world that is grounded in Christian revelation and affirms spiritual causation angels and the reality of the saints It is a clarion call for the Western church to learn from the church in the Global South and create a rich theology that lives up to its professed values as a genuinely inclusive church
