

The Labour Party

Christopher Kirkland

The Labour Party:

The Rise of the Labour Party 1880-1945 Paul Adelman, 2014-09-25 This popular study covers two major topics the formation of the Labour Party and its emergence as the main rival to the conservatives This transformation of the British political scene has been accounted for in a variety of ways Dr Adelman examines these explanations and concludes that while there is a consensus about the reasons for the creation of the Labour Party there is no agreement about why it rose to such prominence

The Battle of Ideas in the Labour Party Dimitri Batrouni, 2020-04-22 From Attlee to the birth of New Labour and the advent of Corbynism this book gives a lively account of the ideological developments and dramas in the Labour Party in recent decades Batrouni delves into the totemic battles between hard and soft left examining the destructive and creative elements of key periods of Labour's ideological exhaustion and ideational confusion Providing powerful insights from interviews with some of the most influential thinkers advisors and MPs in the party he goes on to examine the phenomenal emergence of Corbynism the impact of Brexit and what lies ahead for the party

The Politics of the Labour Party Dennis Kavanagh, 2013-04-15 It would be difficult to think of any political party whose internal problems have been so publicly scrutinised as have those of the Labour Party in recent years The authors of The Politics of the Labour Party were not specifically asked to consider the question why Labour There has been no shortage of published views on that subject Instead they were invited to look at certain themes and topics of longer term significance With a focus on contemporary problems whose consequences are still unfolding The Politics of the Labour Party promotes an understanding of the context in which those problems occurred and will develop with its main theme being change Chapters included focus on power in party the developing incompatibility of intra party democracy and parliamentary democracy and the changing styles of political leadership Noted contributors such as the late Robert Mackenzie Colin Crouch and Dennis Kavanagh raise important questions about the changes in the relationship between the party and the trade unions remind us about the scale of Labour's recent decline in electoral support and investigate the party's ideas of representation and asks if Labour is still the workers party The Politics of the Labour Party provides simply the most authoritative analysis of the longer term tensions which lie behind the immediacy of day to day events

Labour's Economic Ideology Since 1900 Christopher Kirkland, 2022-09-20 This book traces the economic ideology of the UK Labour Party from its origins to the current day Through its analysis the book emphasises key crises including the 1926 General Strike the 1931 Great Depression the 1979 Winter of Discontent and the 2007 2008 economic crisis In analysing this history the ideology of the Labour Party is examined through four core themes the party's definition of socialism the role of the state in economic decision making the party's understanding of inequalities and its relationship with the trade union movement The result is a systematic exploration of the drivers and key ideas behind the Labour Party's economic ideology In demonstrating how crises have affected the party's economic policy the book presents a historical analysis of the party's evolution since its formation and offers insights into how future changes may

occur **The Foundations of the British Labour Party** Matthew Worley, 2009 Senior and up and coming scholars present the myriad elements that influenced the early development and political identity of the Labour Party from the party's connections with powerful unions to the impact of socialism religion and other political and social movements on the new party

Labour History and the Labour Movement in Britain Sidney Pollard, 2024-10-28 This volume focuses on labour history in Britain but brings in comparative material on the Continent in particular inter war Germany Special attention is given to wages and living and working conditions in the 19th century to Robert Owen and Co operation and to the modern trade union movement and its attempts to keep up the interests of its members in the fluctuating conditions of the late 19th and earlier 20th centuries The author defends the notion that wage earners have common interests and frequently share common experiences and that their organisations have both a strictly economic aspect trade unions and a wider political dimension The profound changes which the labour organisations underwent in the 19th and 20th centuries are a major concern of these essays

Labour's Renewal? Gerald R. Taylor, 2016-07-27 This is an important critical assessment of Labour's periods of renewal and modernisation Beginning with an indepth analysis of the Policy Review of 1987-92 the author then considers how the lessons of this period influenced the Commission on Social Justice instigated by John Smith and Tony Blair's reform of Clause IV These events are considered as attempts to resolve traditional problems facing the Labour Party the abiding legacy and importance of these fundamental problems is assessed

The Struggle for Labour's Soul Matt Beech, Kevin Hickson, Raymond Plant, 2004-08-02 New Labour is often accused of being obsessed with style rather than substance and with image rather ideology The Struggle for Labour's Soul examines how the party's political thought has developed from 1945 to the present day It explores the divisions in the Labour Party between the old left the new left centrists the old right and New Labour These ideological positions are examined in the context of the key political issues of the twenty first century including constitutional reform markets equality internationalism and globalization The book concludes with commentaries by renowned experts on the various competing traditions within the party Featuring contributions by leading academics journalists and politicians this is the first major analysis of Labour's political thought for a generation

Parliamentary Debates. Legislative Council and House of Representatives New Zealand. Parliament, 1986

Parliamentary Debates. House of Representatives New Zealand. Parliament, 1971
